If a student does not meet the minimum required score set by the state, it's an indication that the student needs more academic preparation. The high school is then required to provide postsecondary preparatory instruction. All students enrolled in public high school in the state of Florida are required to take the PERT in the eleventh grade. The PERT tests students' abilities in math, reading, and writing. The test directly tests for competence for intermediate algebra and freshman level composition. The PERT is not timed, and each section has thirty questions. Scoring The PERT is not a test to pass or fail; it's used to determine the best academic path toward college for students. It's important for students to take the PERT seriously (even though it isn't graded) to ensure they are placed in the most appropriate classes. The PERT is scored by section in a range of 50 - 150, with "cut scores" throughout (so students will get three different scores). There are three or four tiers (depending on the section) of cut scores to determine what level students are currently at.

In 1983, a 20-year-old kid from California wandered into a marketplace in downtown Cairo, Egypt, looking for some eggs to cook for dinner. What he found in the Suq Bab el-Louq was a fascinating world of commerce, ritual, community, and personal drama — constantly changing, yet unchanged for decades upon decades. Truth is indeed more amazing than fiction. These stories draw the reader into an intimate connection with the people of a culture that few Westerners have experienced at this level, a culture that we must understand better as we seek to understand and live in harmony with the Arab world. The stories within are endangered. Much has changed in Cairo in the past thirty years, and the suq and its denizens have all but disappeared as the internet and world trade have altered the way we shop. In the pages of this unparalleled book, the suq lives on. This is a collection of stunning black and white photographs with a gripping narrative story of the Suq's denizens and how the place works. Economists, historians, travelers, political scientists, fans of the Middle East, and general readers will be entranced by this almost uncategorizable but unmissable gem of a book. Come inside. You will never forget what you find.
