If she's our mate... she won't be tamed easily Kalriss: She's the opposite of the women who flock to Colossus, eager to serve. This one hates us to the core. I nearly refused the contract. My triad has done snatch and grabs before. This will be our greatest test. Because when I have her alone... it's going to take every ounce of my will not to snap and lose my honor. If I do, we'll confirm her theories: that all Aurelians secretly ache to follow the Old Ways. That we're all obsessed with claiming our fated mate. We've spent our lives hunting down the cruel Aurelians who snap, and only Harper can give us the information we need to predict the Separatist's next move. She hates our species, and she's not going to give us the information if we ask nicely. We're going to have to take her... But I'm terrified I'm going to become what I've sworn to kill. As long as I don't taste need in her scent, I'll be able to hold back. Harper: Aurelians. Seven-foot-tall Greek Gods of men that fight in warrior triads. They could have ushered us into a golden era. Instead, they used their strength to subjugate us. No more. I'm the only alien behavioral researcher who predicted the split in their Empire. I knew that brutal alien warriors couldn't follow a human queen. I knew the Old Ways would rise again. I've dedicated my life to protecting humanity against their evil... But deep down, sometimes I wonder what it would be like to have a triad of the fierce warriors focused in on me and me alone. Protective. Possessive. Utterly in charge. Thank the Gods that will never happen. Better to read this alien

mate romance series in order, but it contains a full story with a HEA!

A Harvard psychiatrist, the author of *A Prince of Our Disorder*, presents accounts of alien abduction taken from the more than sixty cases he has investigated and examines the implications for our identity as a species.

I'm obsessed with the game. I spend so many hours playing that I dream about dangerous missions on other worlds...and my gorgeous, in-game training partner, Kassius. That is, until I win. I beat the Starfighter Training Academy. But is it a game? Or alien software designed to recruit new, unsuspecting soldiers for a war in another star system? Because when my hot as heck alien shows up at my workplace demanding I leave Earth and travel to the Vega system? What? When he informs me it's my duty to fight Queen Raya and the Dark Fleet? Claims he wants me as much as I've craved him? Let's just say things get crazy. Facing the truth is never easy, but when I arrive at the Elite Starfighter base I learn that Kassius cheated the system, hacked into the game, and lied to everyone on two worlds to make me his. Now who's obsessed? **If you love romance in the style of Nalini Singh, Christine Feehan, J.R. Ward, Lara Adrian, S. E. breeding, and Earth has no choice but to comply. Examines how abduction narratives and individual accounts have evolved and changed, and draws a parallel to the way societal myths are made

In *Secret Life*, Professor David M. Jacobs of Temple University takes us into the private world of those abducted by aliens, letting them describe in their own words what it is like to be abducted. Based on interviews with sixty individuals and more than 300 independently corroborated accounts, *Secret Life* presents the most complete and accurate picture of alien abductions ever compiled. Dr. Jacobs takes the reader on a minute-by-minute journey through a typical abduction experience and describes in detail the bizarre physical, mental and reproductive procedures that abductees claim have been administered by small alien beings. Jacobs draws from these interviews a profoundly unsettling reason behind the abductions: aliens are conducting a complex reproductive experiment involving the conception, gestation, or incubation of human and alien hybrid beings.

After several years of being out of print and becoming a bit of a collectors item; TAKEN, the startling accounts of alien abduction as documented by the late Karla Turner, has been refreshed and reissued faithfully with the sole input and authorization from husband Elton Turner. With a new foreword written by the legendary Nick Pope who with 21 years of experience at the British Government's Ministry of Defence and an incredible history of research and broadcasting, puts it best that Taken is a real 'researcher's book'. This is the ultimate investigation of the paranormal links between humans and 'other worldly' beings.

This novel is based on a much shorter version published in David Drake's "Foreign Legions".

Close Encounters of the Fourth Kind: cases in which personal contact between an individual or individuals is initiated by the “occupants” of the spacecraft. Such contact may involve the transportation of the individual from his or her terrestrial surroundings into the spacecraft, where the individual is communicated with and/or subjected to an examination before being returned. One might expect that a “scientific conference” devoted to people who have reported being kidnapped by “little green men” would be dismissed out of hand. But C.D.B. Bryan, the greatly admired journalist and author of *Friendly Fire*, did not dismiss it: the conference was to be held at the Massachusetts Institute of Technology and would have as its chairmen a Pulitzer Prize-winning Harvard psychiatry professor and a professor of physics from M.I.T. Bryan attended the conference throughout its five days. He approached the subject with no prior stand, no agenda, and an open (if slightly skeptical) mind. As the conference progressed, he was astonished by the quality of the stories told by the hundreds of men and women who came forward hesitantly and reluctantly with their utterly amazing—and utterly convincing—accounts of having been abducted and then examined aboard extraterrestrial spacecraft by spindly limbed, telepathic gray creatures with outsized foreheads dominated by huge, compelling, tear-shaped black eyes. What most astonished Bryan were the similarities found again and again in these accounts and the consistency of their details. It is here that the heart of the mystery lies: as the Harvard professor John E. Mack asked at the conference, “If what the abductees are saying isn’t happening to them, then what is?” This question—and the possible answers—are at the center of this richly explicit, serious, and riveting book. Bryan recreates the conference. He interviews ufology’s most

prominent psychiatrists, psychologists, hypnotherapists, researchers, physicists, physicians, and folklorists. He interweaves throughout the testimony of the abductees themselves, who tell us their stories in chilling detail. He presents, in depth, the Close Encounter experiences of two women whose stories he tells on the basis of both their spontaneous recollections of the events and their memories that were retrieved through sessions of hypnosis of which Bryan himself was a witness. Finally, Bryan examines the current theories—psychological, psychiatric, medical, parapsychological—that have been put forward by the unconvinced to explain the abduction phenomenon. Are the abductees suffering from some sort of false memory syndrome? . . . a multiple or dissociative personality disorder? . . . Are they fantasy-prone? *Close Encounters of the Fourth Kind* is a detailed, objective exploration—the most concrete to date—of one of the enduring and amazing mysteries of our time. It is a book that will equally fascinate believers and nonbelievers.

An alien fantasy brought to life... It should have been a simple volunteer job. Keep the events for the *Romancing the Capital* convention running smooth. But from the moment Brigitte lays eyes on the male model dipped in purple, hired for the galactic party, she is thrown into a tizzy—mostly because of his stolen kiss. Imagine her shock once she realizes he's not an actor. This purple alien is for real! And Phyr didn't come to RTC alone. He brought a bunch of his mercenary friends to help him abduct all the single ladies. These readers are about to go on a galactic adventure wilder than anything they've ever read in a book—and hotter than anything they could have imagined.

They are tiny. They are tall. They are gray. They are green. They survey our world with enormous glowing eyes. To conduct their shocking experiments, they creep in at night to

carry humans off to their spaceships. Yet there is no evidence that they exist at all. So how could anyone believe he or she was abducted by aliens? Or want to believe it? To answer these questions, psychologist Susan Clancy interviewed and evaluated "abductees"--old and young, male and female, religious and agnostic. She listened closely to their stories--how they struggled to explain something strange in their remembered experience, how abduction seemed plausible, and how, having suspected abduction, they began to recollect it, aided by suggestion and hypnosis. Clancy argues that abductees are sane and intelligent people who have unwittingly created vivid false memories from a toxic mix of nightmares, culturally available texts (abduction reports began only after stories of extraterrestrials appeared in films and on TV), and a powerful drive for meaning that science is unable to satisfy. For them, otherworldly terror can become a transforming, even inspiring experience. "Being abducted," writes Clancy, "may be a baptism in the new religion of this millennium." This book is not only a subtle exploration of the workings of memory, but a sensitive inquiry into the nature of belief.

A True Story of Alien Abduction - One of the most important, sincere and honest abduction stories out there. Finally back in print. Following the 2013 reissue of TAKEN, a book that has been out of print for several years and fetched excessive amounts amongst collectors and those wishing to get their hands on such a legendary piece of non-fiction, INTO THE FRINGE is where it all began for Dr Karla Turner and her family. As with the reissue of TAKEN, INTO THE FRINGE is an officially authorized republication with the sole input of Karla Turner's widower Elton. Endorsed and approved by Elton Turner with the highest respect for the importance of the story; we excitedly bring INTO THE FRINGE to the 21st century. Into the Fringe documents the account of alien

abduction and how Karla Turner, along with her family, uncovered the memories and physical evidence of their encounters with beings from outside of our own planet. "This brave and defiant refusal, in the name of humanity, to countenance suffering from an alien tyrant masquerading as a benefactor, is Karla Turner's final legacy." - John Chambers, UFO Magazine

The Believer is the weird and chilling true story of Dr. John Mack. This eminent Harvard psychiatrist and Pulitzer Prize-winning biographer risked his career to investigate the phenomenon of human encounters with aliens and to give credibility to the stupefying tales shared by people who were utterly convinced they had happened. Nothing in Mack's four decades of psychiatry had prepared him for the otherworldly accounts of a cross-section of humanity including young children who reported being taken against their wills by alien beings. Over the course of his career his interest in alien abduction grew from curiosity to wonder, ultimately developing into a limitless, unwavering passion. Based on exclusive access to Mack's archives, journals, and psychiatric notes and interviews with his family and closest associates, The Believer reveals the life and work of a man who explored the deepest of scientific conundrums and further leads us to the hidden dimensions and alternate realities that captivated Mack until the end of his life.

Three smoking hot alien brothers who all want to mate with me. Whatever is a girl to do? No matter what they tell you, alien abduction isn't at all like what you see on TV. First, I'm rudely abducted and knocked unconscious. Second, I wake up to an alien monster who wants to... er... "mate" with me, but he's got huge claws, huge fangs, huge... everything. I realize I've been taken by a race of sexy humanoid men. The bonus? They look like fitness models, they all think I'm the most attractive woman they've ever seen, and they can

conjure my deepest fantasies out of thin air. The catch? I'm supposed to woo their prince and future king, and give him an alien baby. The problem is I'm more attracted to his brothers, and the dirty fantasies they show me. On Earth, I was a good girl, but these aliens show me just how naughty I can be. Now my biggest problem is which brother to choose. And just how far will I let them go? ****Content warning: For readers 18 years and older. Contains explicit sexual situations, and sensitive subjects. Despite this, the story ends with a Happily Ever After.

Chronicles the alien abduction case surrounding Linda Cortile, who remembered her experience while under hypnosis and who offered a bizarre explanation to several independent testimonies of a strange incident near where she was taken. Reprint.

Why would two women separated by thousands of miles share a common thread involving alien abduction? Both cases are supported by multiple witnesses and have substantial evidence. Both women experienced missing time while driving with a companion, and were later taken from their homes. Both have been unwilling participants in ongoing experimental procedures that appear to follow family genetic lines. Both witnesses have given detailed descriptions of the crafts' interiors and technology, medical procedures, messages from the visitors, and the types of ETs they have encountered, including their society's hierarchical structure. Even more startling, both have independently described finding themselves on identical huge craft, within the same timeframe. The Alien Abduction Files finally reveals: The little-known details of alien experimental procedures The theoretical science that can explain alien technology The messages conveyed by the ETs to abduction experiencers The vulnerabilities and benefits of living life as an abduction experiencer The evidence that these phenomena are real.

Getting probed by aliens was only the beginning... I was abducted by incompetent aliens. They didn't know what they were doing and they still don't have a clue. Now that we're done with all the probing, they're taking lessons in 'Caring for Vulnerable Females' and 'Nest Building for Beginners' and want to turn me into their mate. And no, they don't listen when I tell them I don't need a nest. In theory, I could fall for these three hunky aliens who can bring me more pleasure than I ever dreamed of, but we're being watched and analysed every minute of the day. A creepy professor from the Intergalactic University uses us as examples for her lessons, sometimes with dangerous consequences, and there's nothing we can do about it. I don't want to be a science experiment, but can I resist falling for the aliens who stole me from Earth? The first part of this hilarious sci-fi romance trilogy is published in the *Stolen and Seduced* anthology, but all three books can be read as standalones. If you want sexy aliens who will protect their mate at all cost, a sassy female who doesn't need protecting, plus every single alien abduction trope imaginable, scroll up and read this book today. Beware, you may be abducted at any moment, so don't waste time.

In 1994, Christopher Buckley published one of the most acclaimed and successful comic novels of the decade, *Thank You for Smoking*. Now Buckley returns to the strange land of Washington, D.C., in *Little Green Men*, a millennial comedy of manners about aliens and pundits . . . and how much they have in common. The reluctant hero of this hilarious novel is John Oliver Banion, a stuffy Washington talk-show host, whose privileged life is thrown into upheaval when aliens abduct him from his exclusive country-club golf course. But were his gray-skinned captors aliens . . . or something far more sinister? After Banion is abducted again--this time in Palm Springs--he believes he has been chosen by the

extraterrestrials to champion the most important cause of the millennium, and he embarks on a crusade, appearing before a convention of UFO believers and demanding that Congress and the White House seriously investigate UFOs. His friends and family suspect that Banion is having some kind of manic-depressive midlife crisis and urge him to seek therapy before his credibility as a pillar of the punditocracy is ruined. So John Oliver Banion must choose: keep his establishment status or become the leader of millions of impassioned and somewhat scruffy new friends who want to expose the government's secret alien agenda. Little Green Men proves once and for all that the truth is out there. Way out there. And it reaffirms Christopher Buckley's status as the funniest humanoid writer in the universe. "A very powerful book . . . Druffel's research does us all a great service."—Dr. Edgar Mitchell, Apollo 14 astronaut and author of *The Way of the Explorer* In 1988 Ann Druffel, who has researched UFOs for forty years, discovered a little-known fact that had been drowned in abduction hysteria—documented evidence that people have successfully fended off attack by the "greys," the short, big-eyed aliens now familiar through so much popular media. Using her database of 250 case studies, including seventy "resisters," Druffel has ascertained nine techniques that witnesses use to ward off alien entities and even break off abductions in progress. And perhaps even more astonishing, this evidence points to the possible true identity of the greys and their link to the abducting entities of myth and folklore. *How to Defend Yourself Against Alien Abduction* covers various resistance techniques, including:

- Mental Struggle: Block their mind control
- Physical Struggle: Fight back
- Righteous Anger: Summon your inviolate rights
- Protective Rage: Guard your loved ones
- Support from Family Members: Seek strength in

numbers • Intuition: Sense them coming • Metaphysical Methods: Create a personal shield • Appeal to Spiritual Personages: Get help from on high • Repellents: Use time-tested fend-off substances Complete with hair-raising true tales of courage and illustrated with eyewitness sketches, *How to Defend Yourself Against Alien Abduction* is the only book with step-by-step instructions on what to do—and not to do—if aliens come knocking on your door.

“The famous 1961 Betty and Barney Hill abduction by non-humans is taken apart, meticulously re-examined by Betty’s niece Kathleen Marden and nuclear physicist Stanton T. If you have doubts or questions about the Hill case or alien experiences in general, *Captured!* will give you the answers you’re searching for. of a new chemical analysis of the dress Betty was abducted in is shared, which found unusual and rare elements on it. Newly discovered letters at the American Philosophical Society by debunker Philip Klass, regarding an orchestrated plot to paint Betty as delusional reveal what early detractors tried to do. Friedman reviews and refutes the arguments of those who have attacked the Hill case, including the star map Betty Hill saw inside the craft and later recreated.

The ideas of alien abductions have fueled our imagination! What if it happened to you? Discover true cases of alien abductions from people claiming being taken by aliens and that came back to tell their story. Imagine you're out alone at a park somewhere taking in the scenery and simply enjoying the exercise of a nice walk. Suddenly, there's a strange feeling in the air. You don't know what it is, but things somehow just don't seem quite right. You look up and there's a light in the sky. You see a bright flash, and then moments later the light is gone, and you resume your hike through the park. According to many alleged alien abductees, these experiences are often the few, sparse moments of conscious recall of an abduction. The individual does not know it at the time, but he has been an unwilling participant in an extraordinary event. In such a situation the only real clue

would be a quick glance at the time. Our hypothetical hiker looks down at his watch and realizes that over an hour has passed, completely unaccounted for. Abductees and UFO researchers contend that it is within such an hour of so-called "missing time" that alien entities from who knows where conduct examinations and experiments on us hapless humans. Once the aliens have finished their tasks, these diligent ET scientists wipe our conscious memories and return us safely to Earth. But their technology is apparently not perfect, because some Earth dwellers have allegedly been able to uncover these supposedly lost memories through hypnotic regression. This book takes a look at some of these startling claims of alien-human interactions that the world has come to know as "alien abductions." This is not an attempt to prove the veracity of these claims, but simply to present them as they are reported, so that readers can decide for themselves. There have been over 40 million logged sightings of

unidentified flying objects, and tens of thousands of alien abduction reports. Every year brings more evidence from reliable witnesses of the highest calibre, and reports come from every corner of the globe. Many stories presented here have a bizarre consistency that is not easily explained away; something is happening out there. Once you discard the stories that you find too incredible to be true, what you are left with will undoubtedly constitute The Worlds Greastest Alien Abduction Mysteries.

For decades, people have reported close encounters with extraterrestrial entities. Witnesses describe being kidnapped by large-headed, black-eyed creatures from other worlds. Those same creatures have become popularly known as “the Grays.” There is, however, another aspect to the alien abduction controversy. Abductees very often report being followed and spied upon by military and government personnel. It is typical for abductees to see black helicopters hovering directly over their homes in an intimidating manner. Phone calls are monitored. Emails are hacked into. Strange men dressed in black suits are seen photographing the homes of the abductees. All of this brings us to the matter of what have become known in the domain of alien abduction research as “Military Abductions,” or “MILABS.” According to numerous abductees, after being kidnapped by aliens they are kidnapped again . . . by the government. These follow-up events are the work of a powerful group hidden deep within the military and the intelligence community. It is the secret agenda of this highly classified organization to figure out what the so-called Grays are really up to. And, the best way for the government to get the answers is to interrogate those who have come face-to-face with the UFO phenomenon: the abductees. Why is the government secretly compiling files on alien abductees? Is the alien abduction issue so sinister that it has become a matter of national security proportions?

Pascagoula - The Closest Encounter - My Story By Calvin Parker Foreword by Philip Mantle (FULL COLOUR EDITION) On October 11th, 1973 nineteen year old Calvin Parker and his friend forty two year old Charles Hickson were spending a frustrating evening fishing on the Pascagoula River in Mississippi. Both men loved to fish but tonight's fishing trip would turn out to be one they would never forget. In the early evening both men were startled when a strange craft descended and hovered a few feet above the ground and just a few yards from their location. Both men were absolutely terrified when these creatures grabbed them and took them aboard the craft. On the craft both men were subjected to an examination and at one point they were so terrified as they believed they were about to die. Taking off in their car the two terrified witnesses eventually located a public telephone box and phoned the local sheriff. A short time later they were being interviewed at their local sheriff's office. These two disorientated witnesses told their story of their close encounter and abduction by these strange creatures. The next day all hell was let loose as the press descended on this unsuspecting Mississippi town. Calvin Parker, seriously disturbed by these events, has largely remained in the background without ever detailing the full account of what happened that night, how it affected him and his life, and other close encounters he has experienced down the years. Now, for the first time, Calvin Parker tells his story in full. This book, Pascagoula - The Closest Encounter, tells the story of one of the classic close encounters currently on record. This book features for the first time the full transcript of Calvin Parker's hypnotic regression session with the late Budd
