Animation has been a staple of the filmmaking process since the early days of cinema. Animated shorts had been produced for decades, but not until 1937 did a major studio venture into animated features when Walt Disney produced Snow White and the Seven Dwarfs. Of the hundreds of animated feature films made since, many have proven their importance over the years while also entertaining generations of audiences. There are also many recent animated movies that promise to become classics in the field. In 100 Greatest American British Animated Films, Thomas S. Hischak looks at the most innovative, influential, and entertaining features that have been produced since the late 1930s—from traditional hand-drawn works and stop-motion films to computer-generated wonders. These movies have been selected not simply because of their popularity or critical acceptance but for their importance. Entries in this volume contain plot information production history critical reaction commentary on the film's cinematic quality a discussion of the film's influence voice casts production credits songs sequels, spin-offs, Broadway versions, and television adaptations awards and nominations Each movie is also discussed in the context of its original release as well as the ways in which the film has lived on in the years since. Familiar favorites and lesser-known gems are included, making the book a fascinating journey for both the avid animation fan and the everyday moviegoer. With a sweeping look at more than eight decades of movies, 100 Greatest American and British Animated Films highlights some of the most treasured features of all time.

'When you wish upon a star', 'Whistle While You Work', 'The Happiest Place on Earth' - these are lyrics indelibly linked to Disney, one of the most admired and best-known companies in the world. So when Roy Disney, chairman of Disney animation, abruptly resigned in November 2003 and declared war on chairman and chief executive Michael Eisner, he sent shock waves throughout the world. DISNEYWAR is the dramatic inside story of what drove this iconic entertainment company to civil war, told by one of America's most acclaimed journalists.

Drawing on unprecedented access to both Eisner and Roy Disney, current and former Disney executives and board members, as well as hundreds of pages of never-before-seen letters and memos, James B. Stewart gets to the bottom of mysteries that have enveloped Disney for years. In riveting detail, Stewart also lays bare the creative process that lies at the heart of Disney. Even as the executive suite has been engulfed in turmoil, Disney has worked - and sometimes clashed - with a glittering array of Hollywood players, many of who tell their stories here for the first time.

“The definitive history of the studio” created by the larger-than-life team of Spielberg, Geffen, and Katzenberg (Los Angeles Times). For sixty years, since the birth of United Artists, the studio landscape was unchanged. Then came Hollywood’s Circus Maximus—created by director Steven Spielberg, billionaire David Geffen, and Jeffrey Katzenberg, who gave the world The Lion King—an entertainment empire called DreamWorks. Now Nicole LaPorte, who covered the company for Variety, goes behind the hype to reveal for the first time the delicious truth of what happened. Readers will feel they are part of the creative calamities of moviemaking as LaPorte’s fly-on-the-wall detail shows us Hollywood’s bizarre rules of business. We see the clashes between the often-otherworldly Spielberg’s troops and Katzenberg’s warriors, the debacles and disasters, but also the Oscar-winning triumphs, including Saving Private Ryan. We watch as the studio burns through billions of dollars, its rich owners get richer, and everybody else suffers. LaPorte displays Geffen, seducing investors like Microsoft’s Paul Allen, showing his steel against CAA’s Michael Ovitz, and staging fireworks during negotiations with Paramount and Disney. Here is a blockbuster behind-the-scenes Hollywood story—up close, glamorous, and gritty.
