Born into a blue-collar family in the Jim Crow South, Herman J. Russell built a shoeshine business when he was twelve years old—and used the profits to buy a vacant lot where he built a duplex while he was still a teen. Over the next fifty years, he continued to build businesses, amassing one of the nation's most profitable minority-owned conglomerates. In *Building Atlanta*, Russell shares his inspiring life story and reveals how he overcame racism, poverty, and a debilitating speech impediment to become one of the most successful African American entrepreneurs, Atlanta civic leaders, and unsung heroes of the civil rights movement. Not just a typical rags-to-riches story, Russell achieved his success through focus, planning, and humility, and he shares his winning advice throughout. As a millionaire builder before the civil rights movement took hold and a friend of Dr. King, Ralph Abernathy, and Andrew Young, he quietly helped finance the civil rights crusade, putting up bond for protestors and providing the funds that kept King's dream alive. He provides a wonderful behind-the-scenes look at the role the business community, both black and white working together, played in Atlanta's peaceful progression from the capital of the racially divided Old South to the financial center of the New South.

"Wow. This book totally rocks. It arrived on a day when I was in deep confusion and sadness about my age. Everything about it, from my invisibility to my neck. Within four or five wise,

passionate pages, I had found insight, illumination, and inspiration. I never use the word empower, but this book has empowered me.” —Anne Lamott, New York Times bestselling author Author, activist, and TED speaker Ashton Applewhite has written a rousing manifesto calling for an end to discrimination and prejudice on the basis of age. In our youth obsessed culture, we’re bombarded by media images and messages about the despairs and declines of our later years. Beauty and pharmaceutical companies work overtime to convince people to purchase products that will retain their youthful appearance and vitality. Wrinkles are embarrassing. Gray hair should be colored and bald heads covered with implants. Older minds and bodies are too frail to keep up with the pace of the modern working world and olders should just step aside for the new generation. Ashton Applewhite once held these beliefs too until she realized where this prejudice comes from and the damage it does. Lively, funny, and deeply researched, *This Chair Rocks* traces her journey from apprehensive boomer to pro-aging radical, and in the process debunks myth after myth about late life. Explaining the roots of ageism in history and how it divides and debases, Applewhite examines how ageist stereotypes cripple the way our brains and bodies function, looks at ageism in the workplace and the bedroom, exposes the cost of the all-American myth of independence, critiques the portrayal of elders as burdens to society, describes what an all-age-friendly world would look like, and offers a rousing call to action. It’s time to create a world of age equality by making discrimination on the basis of age as unacceptable as any other kind of bias. Whether you’re older or hoping to get there, this book will shake you by the shoulders, cheer you up, make you mad, and change the way you see the rest of your life. Age pride!

A sampling of the writings of Chinese women poets from ancient times to the twentieth century is accompanied by brief biographies and a discussion of their influence on Chinese literature. “Atkinson and Jewell invite each of us to reimagine one’s connection to the land while cultivating nature close to home. A must-read for anyone searching for inspired solutions for designing or refining a garden.” —Emily Murphy, founder of *Pass the Pistil* From windswept deserts to misty seaside hills and verdant valleys, the natural landscapes of the American West offer an astounding variety of climates for gardens. *Under Western Skies* reveals thirty-six of the most innovative designs—all embracing and celebrating the very soul of the land on which they grow. For the gardeners featured here, nature is the ultimate inspiration rather than something to be dominated, and *Under Western Skies* shows the strong connection each garden has with its place. Packed with Atkinson’s stunning photographs and illuminated by Jewell’s deep interest in the relationships between people and the spaces they inhabit, *Under Western Skies* offers page after page of encouraging ingenuity and inventive design for passionate gardeners who call the West home.

What media content attracts audiences across cultures and what does not? What does the cross-cultural audience demand depend on? The author takes a new approach to understanding cultural barriers to the success of foreign media content by analyzing the entry strategies of Time Warner, Disney, Viacom, News Corporation, and Bertelsmann with regard to China, India, and Japan in terms of their respective localization efforts. In-depth interviews with companies' representatives give an insight into how they view the need for locally-produced media in these countries. The author develops and employs the Lacuna and Universal Model that provides a new theoretical classification of reasons for the cross-cultural success and failure of media content, as well as the Vertical Barrier Chain that locates cultural barriers in the wider context of legal, political, and economic barriers to successful entry into foreign media markets.

East Manchester has been the site of one of the most substantial regeneration projects internationally. The initiative in east Manchester confirmed the tag that the city is the 'regeneration capital' of the United Kingdom. While the book focuses on a single project, it has wider relevance to national and international regeneration initiatives. The book assesses the outcomes of the regeneration, although it demonstrates the difficulties in producing a definitive evaluation. It has a political focus and illuminates and challenges many assumptions underpinning three major current academic debates: governance, participatory democracy and ideology. The book is relevant to students of politics, geography, sociology, public administration and recent history but will also interest practitioners, academics and general readers interested in urban regeneration. Mancunians will also be fascinated by the rapidly changing face and character of their city as will those with an interest in Manchester's football, the Commonwealth Games and Sportcity.

One of the greatest entrepreneurial success stories of the past twenty years When a friend told Bernie Marcus and Arthur Blank that “you’ve just been hit in the ass by a golden horseshoe,” they thought he was crazy. After all, both had just been fired. What the friend, Ken Langone, meant was that they now had the opportunity to create the kind of wide-open warehouse store that would help spark a consumer revolution through low prices, excellent customer service, and wide availability of products. Built from Scratch is the story of how two incredibly determined and creative people—and their associates—built a business from nothing to 761 stores and \$30 billion in sales in a mere twenty years. Built from Scratch tells many colorful stories associated with The Home Depot’s founding and meteoric rise; shows that a company can be a tough, growth-oriented competitor and still maintain a high sense of responsibility to the community; and provides great lessons useful to people in any business, from start-ups to the Fortune 500.

The lifeblood of your business is repeat customers. But customers can be fickle, markets shift, and competitors are ruthless. So how do you ensure a steady flow of repeat business? The secret—no matter what industry you’re in—is finding and keeping automatic customers. These days virtually anything you need can be purchased through a subscription, with more convenience than ever before. Far beyond Spotify, Netflix, and New York Times subscriptions, you can sign up for weekly or monthly supplies of everything from groceries (AmazonFresh) to cosmetics (Birchbox) to razor blades (Dollar Shave Club). According to John Warrillow, this emerging subscription economy offers huge opportunities to companies that know how to turn customers into subscribers. Automatic customers are the key to increasing cash flow, igniting growth, and boosting the value of your company. Consider Whatsapp, the internet-based messaging service that was purchased by Facebook for \$19 billion. While other services bombarded users with invasive ads in order to fund a free messaging platform, Whatsapp offered a refreshingly private tool on a subscription platform, charging just \$1 per year. Their business model enabled the kind of service that customers wanted and ensured automatic customers for years to come. As Warrillow shows, subscriptions aren’t limited to technology or media businesses.

Companies in nearly any industry, from start-ups to the Fortune 500, from home contractors to florists, can build subscriptions into their business. Warrillow provides the essential blueprint for winning automatic customers with one of the nine subscription business models, including:

- The Membership Website Model: Companies like The Wood Whisperer Guild, ContractorSelling, and DanceStudioOwner offer access to highly specialized, high quality information, recognizing that people will pay for good content. This model can work for any

business with a tightly defined niche market and insider information. • The Simplifier Model: Companies like Mosquito Squad (pest control) and Hassle Free Homes (home maintenance) take a recurring task off your to-do list. Any business serving busy consumers can adopt this model not only to create a recurring revenue stream, but also to take advantage of the opportunity to cross-sell or bundle their services. • The Surprise Box Model: Companies like BarkBox (dog treats) and Standard Cocoa (craft chocolate) send their subscribers curated packages of goodies each month. If you can handle the logistics of shipping, giving customers joy in something new can translate to sales on your larger e-commerce site. This book also shows you how to master the psychology of selling subscriptions and how to reduce churn and provides a road map for the essential statistics you need to measure the health of your subscription business. Whether you want to transform your entire business into a recurring revenue engine or just pick up an extra 5 percent of sales growth, The Automatic Customer will be your secret weapon.
