"A thrilling new holiday novel from #1 New York Times bestselling author Glenn Beck"--"Bestselling author Glenn Beck re-tells the story of Santa Claus, imagining him at the first Christmas and casting him as a guardian for the infant and adult Jesus"--

Mind Your Thoughts is a book that will help you quiet and focus your thoughts so you speak directly to your unconscious state of being in a language the mind understands. Meditation is nothing more than relaxation, and in a meditative state, your conscious can relax and allow you to speak directly to the unconscious. The unconscious is in charge of your life, even though you allow your conscious to be in control. If you want to experience change in your life, you need to learn to bypass the conscious control which can be described as critical, analytical, and most of all judgmental. Meditating through relaxation is how you reprogram your unconscious with new concepts and information. The unconscious learns by applying this information against the storage of all your memories, experiences, reactions, and emotions. Also, the unconscious is much more accepting of change because it processes information without judgment. You will see both mental and physical changes resulting from this process. Practice with the thoughts in this book; your unconscious will understand even if your conscious seems confused. Mind your thoughts and experience a human metamorphosis from the inside out. The purpose of meditation is to quiet the mind. Meditation removes the clutter of thoughts from everyday life, and also helps you to get in touch with your higher consciousness. It does take practice, so do not become discouraged. Set aside 45 minutes each evening before you go to sleep. Sit in a quiet room, in a comfortable and relaxed position wearing loose clothing. Close your eyes and take a deep breath in through your nose and let it out slowly through your mouth. With each breath in, clear your mind of all thoughts, and feel your body relax. Repeat this 9 times before beginning. This book contains 81 thoughts for you to meditate on. There are 9 sets of 9 thoughts each. Start with Set One and allow 5 minutes of meditation for each thought. After your initial warm up of 9 deep breaths, read the first thought of the first set. Close your eyes and continue your deep breathing as you reflect on the thought and what it may mean to you and your life. Think of nothing else. Repeat this with each thought until you complete Set One. It will take you at least 9 evenings to get through all of the sets in the book. You may want to repeat a set over and over again before moving on to the next set. Eventually, you will have your favorite thoughts that you will want to dedicate your meditations on. Most people enjoy thoughts of wisdom, but rarely take the time to internalize them enough to be life changing. Practice mindfulness in life and create ripples that will forever change your life. This is not an instructional book on the art of meditation.

Phillips was born in Madison, Indiana. After graduating high school Phillips entered Asbury College following which he degreed from College of New Jersey in 1887. "A superb, crucial, blistering expose of all the myths about our education system that are all too often used to attack it. Melissa Benn again proves why she is one of country's most formidable education campaigners - and why the powerful should fear her. Owen Jones, Guardian columnist and best-selling author Never has it been more urgent to publicise the truth about what works and doesn't work in our education system. Debunking the ideology of marketisation, and exposing the half-truths that pass for objective reporting, Benn and Downs meticulously lay out the evidence: that a national system of comprehensive schools delivers the best outcomes. This hugely important book should be required reading for each new Education Secretary. Caroline Lucas, MP Opinions about comprehensive education are often made into easy-to-swallow sound-bites by media and politicians alike and whilst the benefits of a genuinely comprehensive education for all pupils are obvious, untruths have unwittingly evolved into hard facts. Based on Melissa Benn and Janet Downs' work as part of the pioneering Local Schools Network, The Truth About Our Schools calls for us to urgently and articulately challenge unquestioned myths about state education. Benn and Downs have meticulously built an argument for its still enormously vital role, and rigorously challenge assumptions that: Comprehensive education has failed Local authorities control and hold back schools Choice, competition and markets are the route to educational success Choice will improve education in England: the free school model. Academies raise standards Teachers don't need qualifications Private schools have the magic DNA Progressive education lowers standards Anyone who thinks that comprehensive education cannot deliver, that local authorities are the chief block to improving our school system, that competition and markets are the route to educational success and that private schools hold the magic DNA that can simply be transferred to other state schools will have their beliefs shaken by this blisteringly incisive book. .

#1 bestselling author and popular radio and television host Glenn Beck shines a spotlight on today's culture of violence and provides practical, timely, and fact-based answers to the most commonly heard gun-control arguments. When our founding fathers secured the Constitutional "right of the people to keep and bear arms," they also added the admonition that this right SHALL NOT BE INFRINGED. It is the only time this phrase appears in the Bill of Rights. So why aren't more people listening? History has proven that guns are essential to self-defense and liberty—but tragedy is a powerful force and has led many to believe that guns are the enemy, that the Second Amendment is outdated, and that more restrictions or outright bans on firearms will somehow solve everything. They are wrong. In CONTROL, Glenn Beck presents a passionate, fact-based case for guns that reveals why gun control isn't really about controlling guns at all; it's about controlling us. In doing so, he takes on and debunks the common myths and outright lies that are often used to vilify guns and demean their owners: The Second Amendment is ABOUT MUSKETS . . . GUN CONTROL WORKS in other countries . . . 40 percent of all guns are sold without BACKGROUND CHECKS . . . More GUNS MEAN more MURDER . . . Mass shootings are becoming more common . . . These awful MASSACRES ARE UNIQUE TO AMERICA . . . No CIVILIAN needs a "weapon of war" like the AR-15 . . . ARMED GUARDS in schools do nothing, just look at Columbine . . . Stop FEARMONGERING, no one is talking about TAKING YOUR GUNS AWAY. Backed by hundreds of sources, this handbook gives everyone who cares about the Second Amendment the indisputable facts they need to reclaim the debate, defeat the fear, and take back their natural rights.

Traffic citations are big business, providing billions of dollars annually to municipal corporations. Police are incentivized to unlawfully pull over and detain drivers, seize and search their belongings, and ask interrogating questions, all in the the hope of finding excuses to issue fine-generating infractions. Society has been conditioned to accept violations to their individual rights that in past generations wouldn't have been tolerated. The author reveals that traffic enforcement has become a nationwide racketeering scam. With a deft understanding of natural law and the Constitution, the author shows how police officers routinely ignore individuals' rights, while traffic courts actively disregard due process for the sake of revenue. The chilling reality is that the misapplication of motor vehicle codes is representative of a greater trend towards eliminating our rights in general. Our government is vitiating its people; the sovereign are being transformed into subjects. Its time for Americans to resist totalitarianism: whether at the capitol, in the courts, or on our highways. As one of "We the people," I humbly implore you to read this book and spend time comprehending its implications. As Thomas Jefferson said, "If a nation expects to be ignorant and free in a state of civilization, they expect what never was nor ever will be."

In his groundbreaking book 'Musical Truth, ' DJ-turned author/ researcher Mark Devlin showed how the true nature of the corporate music industry tells a very different story to what's conveyed on its glossy, glamorous surface. The manipulations run so deep, however, that the full story couldn't be told in just that first book. Here, in Volume 2, he continues to guide readers through the dark labyrinth of machinations. Discover the world of Lifetime Actors and the crucial part they play in social engineering; delve into Heavy Rock, frequently touted as the most 'satanic' of all music genres; consider the evidence for the hip-hop scene being a cult-like fraternity on a staggering scale; reflect on the nature of sound itself and the ways it can be used to affect human behaviour; and study the striking parallels between the 1960s counter-culture and the UK's Acid House scene that kicked off 21 years later, all bearing the hallmarks of Establishment manipulation. Crucially, Volume 2 reminds readers of how the music industry's activities form only one small part of what's really going on in this reality, and how the power to bring it all to an end lies with us and us alone. It always has. We've just been programmed to forget. Amazon review excerpts for 'Musical Truth, Volume 1' "I came across this book by chance, and am so glad I did. It's very well-written and a fascinating subject. It goes far deeper than just the music, too, the first chapter explaining how music fits into the larger scheme of things is spot-on. The author explains everything he speaks about, and provides links and other resources so the reader can check all the facts for themselves... and it all checks out!" "Excellent tome! Very well-researched, engagingly presented, pithy, witty, incisive and compelling." "I was aware of

much of its content already, but Mark Devlin has brought so many pieces of a puzzling jigsaw together in an immensely comprehensive and articulate way. His style of writing is very natural and readable which makes it effortless for the reader - a skill that not all writers of this genre possess." "Beautiful, easy-reading language, where his soul combined with his intellect controls the pen. I just wanted to continue reading the whole night. Important stuff about our reality."

#1 bestselling author and radio host Glenn Beck exposes the real truth behind the roots of Islamic extremism in Muslim teachings in this sharply insightful handbook that debunks commonly held assumptions about Islam and the dream of a renewed caliphate. From the barbarians of ISIS to the terror tactics of Al-Qaeda and its offshoots, to the impending threat of a nuclear Iran, those motivated by extreme fundamentalist Islamic faith have the power to endanger and kill millions. The conflict with them will not end until we face the truth about those who find their inspiration and justification in the religion itself. Drawing on quotes from the Koran and the hadith, as well as from leaders of ISIS, Al Qaeda, and the Muslim Brotherhood, Glenn Beck seeks to expose the true origins of Islamic extremism as well as the deadly theological motivations behind these agencies of destruction. Using the same unique no-holds-barred style from his bestselling books Control and Conform, Glenn Beck offers straight facts and history about the fundamental beliefs that inspire so many to kill.

BEYOND ANYTHING YOU EVER IMAGINED WAS POSSIBLE! EXPLORE PARALLEL WORLDS AND OTHER DIMENSIONS. ESCAPE THE CONFINES OF THE MATRIX AND ELUDE THOSE THAT CONTROL OUR LIVES THROUGH A COMPUTERIZED SIMULATION. You Have Doubtlessly Seen The Movies Based Upon What We Have All Come to Believe Are Exceptionally Brilliant Science Fiction Novels Written By The Late Philip K. Dick . . . TOTAL RECALL - BLADE RUNNER - THE ADJUSTMENT BUREAU But what you probably didn't know is that their creator was living out some of the same incredibly bizarre scenarios that he wrote about. One can easily compare Philip to the character played by Arnold Schwarzenegger in "Total Recall," who found himself in a parallel universe on a faraway planet, despite the fact that he was only supposed to be hooked up in a laboratory to a machine that creates realistic dream-like images. Which reality is the character really living in? At a sci-fi press conference held in France in 1977, Philip tried to explain some of his bewildering thoughts about the existence of a parallel or self-contained - Matrix-like - universe created by "someone" who has the ability to alter the course of time and our concept of reality: "People claim to remember past lives," Philip told the throng of reporters and fans. "I claim to remember a different - very different - present life. I know of nobody who has ever made this claim before but I rather suspect that my experience is not unique. What perhaps is unique is my willingness to talk about it. We are living in a computer-programmed reality and the only clue we have to it is when some variable is changed and some alteration in our reality occurs . . . and because of this a variable WAS changed - reprogrammed as it were - and an alternative world branched off." Drawing on the masterful mind of creative genius Philip K. Dick we offer up dozens of his personal experiences, as well as those of others in the UFO and paranormal fields, where synchronicities seem to abound. This is NOT science fiction. This is a universe that cannot be so easily grasped or explained. The well-known collector of scientific curiosities, Charles Fort, is often quoted as having said: "The Earth is a farm. We are someone's property." He likened our condition to being movable pieces on a chess board. "There is no doubt that we are under some sort of surveillance and that an "invisible hand" has the ability to carve out our existence and "interfere" in our daily lives by creating a variety of bizarre "play scripts" that to some may seem like pure "coincidences."" Or so says pop culture paranormalist Tim Beckley, who notes that "Synchronicities are not just random occurrences but are laid out before us by some sort of synchronicity command post, which ably demonstrates their mastery or control over us hapless earthlings." Drawing on the masterful mind of creative genius Philip K. Dick (some to this day perceive him to have been a total "mad man") we offer up dozens of his personal experiences, as well as those of others in the UFO and paranormal fields, where synchronicities seem to abound. Beckley and co-author Sean Casteel lay out a plausible scenario to "explain" the intricate workings of what has been dubbed "The Synchronicity Command Board," or "Earth Coincidence Control Office," as so aptly named by the brilliant American marine biologist and neurologist, Dr. John C. Lilly. THE MATRIX CONTROL SYSTEM OF PHILIP K. DICK - AND THE PARANORMAL SYNCHRONICITIES OF TIMOTHY GREEN BECKLEY has been compiled by Tim Beckley and Sean Casteel with an Introduction by Tessa Dick and added contributions by such esteemed researchers as: Philip K. Dick, Tim Swartz, Nick Redfern, Diane Tessman, Hercules Invictus, Brad Steiger, Brent Raynes, Cynthia Cirile, Valarie D. Orazio, and others who have come to conclude we are living in a computerized simulation, and like PKD acknowledge the existence of the Matrix.

Sometime in the present, corporate tyranny reigns supreme. To stop this madness, what can one person do? What can anybody do? Impassioned environmental activist and nightclub saxophonist Michael Quinn, and his techie guru sidekick, Simon, the mischievous circus clown, believe they, and the ubiquitous Wasteful Management team, have the answer for one day... several multinational corporation chief executive officers (CEOs), infamously renowned for their egregious actions, are mysteriously disappearing across the globe. They are "removed" from society in ways that illustrate poetic justice, as exemplified by the CEO of big agribusiness Tyrannex Inc. who is trampled by a giant GMO tomato in a remote part of India. Michael and Simon realize their window of opportunity is narrow, as Harry Potter and Bilbo's nemeses pale in comparison to real life's Multinational CEO sociopaths, whom Michael and Simon must overcome to save the day and the planet! Jim Hightower says, "Wasteful Management is a refreshing combination of intrigue, humor, camp and serious politics, fusing the gravitas of a Noam Chomsky or a Bill Moyer with the edgy, stinging social commentary of a Jon Stewart or a Stephen Colbert, into a satirical mystery romp." Are you ready for the challenge? Bring your popcorn and come prepared to "boo, hiss" the villain and "cheer!" for the hero; sit back, and enjoy the ride!

A Wall Street Journal and USA Today national bestseller! Multiple New York Times best-selling author Dr. Joseph Mercola and Ronnie Cummins, founder and director of the Organic Consumers Association, team up to expose the truth—and end the madness—about COVID-19. Since early 2020, the world has experienced a series of catastrophic events—a global pandemic caused by what appears to be an engineered coronavirus; international lockdowns and border

closings causing widespread business closures, economic collapse, and massive unemployment; and an unprecedented curtailment of civil liberties and freedoms in the name of keeping people safe by locking them up in their homes. We are now living in a world that is increasingly ruled, not by our democratic systems and institutions, but by public health fiat, carried out by politicians who rule by instilling fear and panic. In *The Truth About COVID-19*, Dr. Mercola and Cummins reveal new and emerging evidence that: The SARS-CoV-2 virus was, indeed, lab-engineered and emerged from a negligently managed bioweapons lab in Wuhan, China. The global pandemic was long anticipated by global elites who have used it to facilitate and hide the largest upward transfer of wealth in human history. PCR testing, case counts, morbidity, and vaccine safety and efficacy data have been widely manipulated and misrepresented. Obesity, diabetes, and heart disease are known to worsen COVID-19 outcomes, but the junk food industry continues to push its agenda at the expense of public health. Safe, simple, and inexpensive treatment and prevention for COVID-19 have been censored and suppressed to create a clear path for vaccine acceptance. Effectiveness of the vaccines has been wildly exaggerated and major safety questions have gone unanswered. The good news in all of this is that we can take control of our health and that, together, we have the power to unite and fight back for our health, democracy, and freedom. The time is now for a global awakening. As Dr. Mercola and Cummins remind us, this is the fight of our lives.

Loretta Marion's debut novel is a twisty page-turner, expertly blending the webs of mystery, danger and suspense with the alluring possibility of romance from a once unrequited love.

A Treatise on 2nd Amendment Rights in the 21st Century is the result of research and analysis intended to answer one primary question: Has there been a shift away from the Constitution in regards to the powers of the government and rights of the people, creating an increasing threat of government tyranny and oppression, while subsequently restricting and prohibiting the right of the people to keep and bear arms through perceptual manipulation and circumvention? The Second Amendment, and the subsequent gun control debate, has now succumbed to the most polarized extremist ideologies since slavery. At its current pace, it will continue to follow the same path. These ideologies are fueled by the conflicting fears of government tyranny and domestic terrorism, along with a renewed sense of religious conflict. Many people follow one or the other of these extremist ideologies on pure emotion, without ever questioning facts or sound logic. *A Treatise on 2nd Amendment Rights in the 21st Century* goes beyond the prevalent extremist bias and is a logic based pursuit of the facts in a fair, balanced and yet often comical read that anyone can relate to. The scope of the Second Amendment right is evaluated from three intertwined perspectives; the evolution of the right itself, the actual need to have the right as evaluated through changes in scope of the militia and the military, and the people's perceptions of the right as a result of both legislation and the media. Part 1 is broken down by a chronological history of the evolution of the right and the subsequent legislation and events which have dramatically affected the right. Part 2 covers the concept of insurrection, religion and the media in relation to the Second Amendment right along with an evaluation of specific points of issue and major players in the current gun control debate. The conclusion offers a logic based framework for gun legislation policies going forward. *A Treatise on 2nd Amendment Rights in the 21st Century* is a pilgrimage down a path towards the heart of the Second Amendment right and it is a journey "we the people" are long overdue to take. Should you wish to embark on such a journey, the map is now in your hands.
