The desire for a soul mate is the ancient need to become the divine couple whose union breathes new life into the world. Seen from this context, finding your soul mate has deeper ramifications than a purely romantic desire; the union of a soul mate is about the creation of an energy that is a candle to bring illumination to the world. The content of this book is designed for spiritually romantic people who have not lost the faith that there is someone out there that has a divine understanding of us, and that two people are brought together for a divine plan that will contribute towards a higher purpose. Based on Vianna Stibal's own experience of finding her soul mate, this book will reaffirm your belief in true love and will explain how, using ThetaHealing®, you can bring your soul mate into your life.

Perfect for fans of *The Rosie Project* and *One Plus One*. Single mom Jess Davis is a data and statistics wizard, but no amount of number crunching can convince her to step back into the dating world. After all, her father was never around, her hard-partying mother disappeared when she was six, and her ex decided he wasn’t “father material” before her daughter was even born. Jess holds her loved ones close but working constantly to stay afloat is hard...and lonely. But then Jess hears about GeneticAlly, a buzzy new DNA-based matchmaking company that’s predicted to change dating forever. Finding a soulmate through DNA? The reliability of numbers: This Jess understands. At least she thought she did, until her test shows an unheard-of 98 percent compatibility with another subject in the database: GeneticAlly’s founder, Dr. River Peña. This is one number she can’t wrap her head around, because she already knows Dr. Peña. The stuck-up, stubborn man is without a doubt not her soulmate. But GeneticAlly has a proposition: Get ‘to know him and we’ll pay you. Jess—who is barely making ends meet—is in no position to turn it down, despite her skepticism about the project and her dislike for River. As the pair are dragged from one event to the next as the “Diamond” pairing that could launch GeneticAlly’s valuation sky-high, Jess begins to realize that there might be more to the scientist—and the science behind a soulmate—than she thought. “Laugh-out-loud, sweet, charming, and humorous” (Library Journal, starred review), *The Soulmate Equation* proves that the delicate balance between fate and choice can never be calculated.

The #1 New York Times Bestseller “An engaging look at the often head-scratching, frequently infuriating mating behaviors that shape our love lives.” —Refinery 29 A hilarious, thoughtful, and in-depth exploration of the pleasures and perils of modern romance from Aziz Ansari, the star of *Master of None* and one of this generation’s sharpest comedic voices At some point, every one of us embarks on a journey to find love. We meet people, date, get into and out of relationships, all with the hope of finding someone with whom we share a deep connection. This seems standard now, but it’s wildly different from what people did even just decades ago. Single people today have more romantic options than at any point in human history. With

technology, our abilities to connect with and sort through these options are staggering. So why are so many people frustrated? Some of our problems are unique to our time. "Why did this guy just text me an emoji of a pizza?" "Should I go out with this girl even though she listed Combos as one of her favorite snack foods? Combos?!" "My girlfriend just got a message from some dude named Nathan. Who's Nathan? Did he just send her a photo of his penis? Should I check just to be sure?" But the transformation of our romantic lives can't be explained by technology alone. In a short period of time, the whole culture of finding love has changed dramatically. A few decades ago, people would find a decent person who lived in their neighborhood. Their families would meet and, after deciding neither party seemed like a murderer, they would get married and soon have a kid, all by the time they were twenty-four. Today, people marry later than ever and spend years of their lives on a quest to find the perfect person, a soul mate. For years, Aziz Ansari has been aiming his comic insight at modern romance, but for *Modern Romance*, the book, he decided he needed to take things to another level. He teamed up with NYU sociologist Eric Klinenberg and designed a massive research project, including hundreds of interviews and focus groups conducted everywhere from Tokyo to Buenos Aires to Wichita. They analyzed behavioral data and surveys and created their own online research forum on Reddit, which drew thousands of messages. They enlisted the world's leading social scientists, including Andrew Cherlin, Eli Finkel, Helen Fisher, Sheena Iyengar, Barry Schwartz, Sherry Turkle, and Robb Willer. The result is unlike any social science or humor book we've seen before. In *Modern Romance*, Ansari combines his irreverent humor with cutting-edge social science to give us an unforgettable tour of our new romantic world.

Modern romance is broken. It's time to flip the script. Apps have transformed dating from a mysterious adventure into a daily chore. Young, single, college-educated women are sick and tired of competing for a shrinking supply of guys. And marriage-material men, long expected to take the lead when it comes to asking women out, are suddenly balking at making the first move, fearing they'll come across as creepy or inappropriate. Society is changing, which

means it's time for dating to evolve. Millennial and Gen Z women are more than capable of seeking out what—and who—they want. They're standouts in the classroom and champions on the playing fields. They're leaders in the workplace and trailblazers in city halls, state houses, and Congress. So why would we tell a generation of badass women that they're not allowed to be bold when it comes to finding love? Why should they have to sit back and wait (and wait and wait) for men to find them? In *Make Your Move: The New Science of Dating and Why Women Are in Charge*, Jon Birger, author of *Date-onomics*, offers women bold new strategies for finding the one. Backed by research showing that women can win at romance by making the first move with the men of their choice, Birger explains why:

- It's better to choose than to be chosen
- The "play hard to get" method is not only outdated but grounded in bad science
- The first move does not have to be a big move
- It's time to log off of dating apps and date men you actually know
- The workplace can be a terrific place to meet a long-term romantic partner
- . . . and more!

"Amy Webb found her true love after a search that's both charmingly romantic and relentlessly data-driven. Anyone who uses online dating sites must read her funny, fascinating book."—Gretchen Rubin, #1 New York Times bestselling author of *The Happiness Project* After yet another disastrous date, Amy Webb was preparing to cancel her JDate membership when epiphany struck: her standards weren't too high, she just wasn't approaching the process the right way. Using her gift for data strategy, she found which keywords were digital-man magnets, analyzed photos, and then adjusted her (female) profile to make the most of that intel. Then began the deluge—dozens of men who actually met her own stringent requirements wanted to meet her. Among them: her future husband, now the father of her child.

Libby Carmichael has just met her Soulmate. It's just too bad he's behind bars. When you only see the world in black and white until you meet yours, it's pretty easy to figure out when you've found your Soulmate. What Libby can't figure out is why fate, destiny, or the powers that be have decided that Andrew McCormack is her one, true match. Libby is smart, organized, and always has a plan for what's coming next. So when she sees Andrew for the first time and her world is instantly filled with color, she's thrown for a loop. Namely because he's in a dingy grey jumpsuit. And handcuffs. And being booked into a juvenile detention facility. Surely a boy who's been convicted of a headline-making, violent crime isn't who she's meant to be with. There's no way she belongs with someone like that...right?

soulful singles who've forgotten how fabulous they are step into their sovereignty and attract the love they deserve!

As a professional psychic counselor for over 20 years who specializes in love and life issues, I see how hard it is for my clients to find true love. For most people, it might not be difficult to get dates or be in short-term relationships, but it's incredibly hard to find "the one." First dates may go along wonderfully but never turn into anything long-term or new relationships that seemed to have so much hope simply crash and burn, joining the wreckage of our past. Others find it almost impossible to even attract potential dates and spend months, years, even decades being alone, hoping and praying that their soulmate will find them at long last. Still, others have completely given up on ever finding true love and have simply decided to stay in a cold or dysfunctional relationship or remain alone. Obviously, there's no shortage of people on the planet, so why is it so hard to find true love? This is why I wrote *Is He The One? Finding and Keeping Your Soulmate*. It covers the many pitfalls and obstacles we face while on the path to finding our soulmate, and ways you can overcome anything and everything that's stopping you from enjoying the relationship you've always dreamed of. I'll show you how to blast through your barriers and ultimately find and keep your Mr. Right.
