The 1925 case against high school coach and science teacher John Scopes, arrested for teaching evolution in defiance of a Tennessee state law, was America's original "Trial of the Century." The proceedings began as a publicity stunt but grew into a landmark event in the nation's history. The trial featured three-time presidential candidate and fundamentalist leader William Jennings Bryan, who argued on behalf of the prosecution, and famed agnostic attorney Clarence Darrow, who helped defend Scopes. Although the Scopes case produced no legal precedent, the trial has been analyzed by historians, praised and vilified by politicians and preachers, cited in countless legal, political, and theological skirmishes, and retold in plays, movies, museum exhibits, and television documentaries. *Images of America: The Scopes Monkey Trial* examines the events that captured the attention of the world and still have much to teach us today.

The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.

"The native American Voltaire, the enemy of all puritans, the heretic in the Sunday school, the one-man demolition crew of the genteel tradition." —Alistair Cooke Fiercely intelligent, scathingly honest, and hysterically funny, H.L. Mencken's coverage of the Scopes Monkey Trial so galvanized the nation that it eventually inspired a Broadway play and the classic Hollywood movie *Inherit the Wind*. Mencken's no-nonsense sensibility is still exciting: his perceptive rendering of the courtroom drama; his piercing portrayals of key figures Scopes, Clarence Darrow, and William Jennings Bryan; his ferocious take on the fundamentalist culture surrounding it all—including a raucous midnight trip into the woods to witness a secret "holy roller" service. Shockingly, these reports have never been gathered together into a book of their own—until now. *A Religious Orgy In Tennessee* includes all of Mencken's reports for *The Baltimore Sun*, *The Nation*, and *The American Mercury*. It even includes his coverage of Bryan's death just days after the trial—an obituary so withering Mencken was forced by his editors to rewrite it, angering him and leading him to rewrite it yet again in a third version

even less forgiving than the first. All three versions are included, as is a complete transcript of the trial's most legendary exchange: Darrow's blistering cross-examination of Bryan. With the rise of "intelligent design," H.L. Mencken's work has never seemed more unnervingly timely—or timeless.

William Evans, the award-winning poet and cofounder of the popular culture website Black Nerd Problems, offers an emotionally vulnerable poetry collection exploring the themes of inheritances, dreams, and injuries that are passed down from one generation to the next and delving into the lived experience of a black man in the American suburbs today. In *We Inherit What the Fires Left*, award-winning poet William Evans embarks on a powerful new collection that explores the lived experience of race in the American suburbs and what dreams and injuries are passed from generation to generation. Fall under the spell of Evans's boldly intimate, wise, and emotionally candid voice in these urgent, electrifying poems. This eloquent collection explores not only what these inheritances are composed of, but what price the bearer must pay for such legacies, and the costly tolls exacted on both body and spirit. Evans writes searingly from the perspective of the marginalized, delivering an unflinching examination of what it is like to be a black man raising a daughter in predominantly white spaces, and the struggle to build a home and a future while carrying the weight of the past. However, in beautiful and quiet scenes of domesticity with his daughter or in thoughtful reflection within himself, Evans offers words of hope to readers, proving that resilience can ultimately bloom even in the face of prejudice. Readers of Ta-Nehisi Coates and Hanif Abdurraqib will find a brilliant, fresh new talent to add to their lists in William Evans. Focusing on crucial aspects of the history of Darwinism in America, *Numbers* gets to the heart of American resistance to Darwin's ideas. He provides a much-needed historical perspective on today's quarrels about creationism and evolution--and illuminates the specifically American nature of this struggle.

A classic work of American theatre, based on the Scopes Monkey Trial of 1925, which pitted Clarence Darrow against William Jennings Bryan in defense of a schoolteacher accused of teaching the theory of evolution The accused was a slight, frightened man who had deliberately broken the law. His trial was a Roman circus. The chief gladiators were two great legal giants of the century. Like two bull elephants locked in mortal combat, they bellowed and roared imprecations and abuse. The spectators sat uneasily in the sweltering heat with murder in their hearts, barely able to restrain themselves. At stake was the freedom of every American. One of the most moving and meaningful plays of our generation. Praise for *Inherit the Wind* "A tidal wave of a drama."—New York World-Telegram And Sun "Jerome Lawrence and Robert E. Lee were classic Broadway scribes who knew how to crank out serious plays for thinking Americans. . . . *Inherit the Wind* is a perpetually prescient courtroom battle over the legality of teaching evolution. . . . We're still arguing this case—all the way to the White House."—Chicago Tribune "Powerful . . . a

crackling good courtroom play . . . [that] provides two of the juiciest roles in American theater.”—Copley News Service “[This] historical drama . . . deserves respect.”—The Columbus Dispatch

Predictive Modeling for Energy Management and Power Systems Engineering introduces readers to the cutting-edge use of big data and large computational infrastructures in energy demand estimation and power management systems. The book supports engineers and scientists who seek to become familiar with advanced optimization techniques for power systems designs, optimization techniques and algorithms for consumer power management, and potential applications of machine learning and artificial intelligence in this field. The book provides modeling theory in an easy-to-read format, verified with on-site models and case studies for specific geographic regions and complex consumer markets. "Destined to become one of the classics of the genre" (Newsweek), the riveting, unforgettable story of a girl whose indomitable spirit is tested by homelessness, poverty, and racism in an unequal America—from Pulitzer Prize-winning journalist Andrea Elliott of *The New York Times* ONE OF THE TEN BEST BOOKS OF THE YEAR: *The New York Times* • ONE OF THE BEST BOOKS OF THE YEAR: *The New York Times Book Review*, *Time*, and NPR *Invisible Child* follows eight dramatic years in the life of a girl whose imagination is as soaring as the skyscrapers near her Brooklyn shelter. Dasani was named after the bottled water that signaled Brooklyn's gentrification and the shared aspirations of a divided city. In this sweeping narrative, Elliott weaves the story of Dasani's childhood with the history of her family, tracing the passage of their ancestors from slavery to the Great Migration north. As Dasani comes of age, the homeless crisis in New York City has exploded amid the deepening chasm between rich and poor. Dasani must guide her siblings through a city riddled by hunger, violence, drug addiction, homelessness, and the monitoring of child protection services. Out on the street, Dasani becomes a fierce fighter to protect the ones she loves. When she finally escapes city life to enroll in a boarding school, she faces an impossible question: What if leaving poverty means abandoning your family, and yourself? By turns heartbreaking and inspiring, *Invisible Child* tells an astonishing story about the power of resilience, the importance of family, and the cost of inequality. Based on nearly a decade of reporting, *Invisible Child* illuminates some of the most critical issues in contemporary America through the life of one remarkable girl.

Most film buffs know that Citizen Kane was based on the life of publisher William Randolph Hearst. But few are aware that key characters in films like Double Indemnity, Cool Hand Luke, Jaws, Rain Man, A Few Good Men and Zero Dark Thirty were inspired by actual persons. This survey of a clef characters covers a selection of fictionalized personalities, beginning with the Silent Era. The landmark lawsuit surrounding Rasputin and the Empress (1932) introduced disclaimers in film credits, assuring audiences that characters were not based on real people--even when they were. Entries cover screen incarnations of Wyatt Earp, Al Capone, Bing Crosby, Amelia Earhart, Buster Keaton, Howard Hughes, Janis Joplin and Richard Nixon, along with the inspirations behind perennial favorites like Charlie Chan and Indiana Jones.

Certain challenges and certain themes recur in translation, whatever the language pair. This guide proposes to help the translator navigate through them.

The Pulitzer Prize-winning history of the Scopes Trial and the battle over evolution and creation in America's schools. In the summer of 1925, the sleepy hamlet of Dayton, Tennessee, became the setting for one of the twentieth century's most contentious courtroom dramas, pitting William Jennings Bryan and the anti-Darwinists against a teacher named John Scopes, represented by Clarence Darrow and the ACLU, in a famous debate over science, religion, and their place in public education. That trial marked the start of a battle that continues to this day in cities and states throughout the country. Edward Larson's classic *Summer for the Gods* -- winner of the Pulitzer Prize in History -- is the single most authoritative account of this pivotal event. An afterword assesses the state of the battle between creationism and evolution, and points the way to how it might potentially be resolved.

In an easy-to-read text, this book examines the growing scientific evidence that is challenging Darwin's theory of evolution: lack of transitional forms in the fossil record; the impossibility of mutations (almost universally destructive) serving as evolutionary building blocks; the flawed logic of natural selection theory; the stunning lack of evidence for ape-men; the mathematic impossibility of life beginning by itself; and much more. Also explores the damaging effect societal impact of Darwinism, and examines how *Inherit the Wind* grossly misled Americans about the Scopes trial. Addresses the ever-vital question: Are we here by chance or are we created by God? Indexed, over 80 illustrations, hundreds of quotes from scientists.

ENDORSEMENTS

DR. DUANE T. GISH, SENIOR VICE PRESIDENT, INSTITUTE FOR CREATION RESEARCH: "Tornado in a Junkyard by James Perloff should be in the library of every one who is interested in the subject of origins. This book is a powerful argument for creation because it is thorough, fully documented, and scientifically accurate. It is easily readable by scientist and layman alike, and is written in a popular style that will make it interesting and entertaining for readers of all ages. I highly recommend this book."

PUBLISHER'S WEEKLY, 8-30-99: "James Perloff's intriguing *Tornado in a Junkyard* aims to debunk evolutionary theory in favor of creationism. Perloff, a former contributing editor to the *New American*, draws upon the work of neo-Darwinists and geneticists to argue that 'while microevolution does occur--meaning minor adaptations and variations within a species, ' there is no solid evidence for macroevolution, or conversion of one animal type into another."

DR. EMMETT L. WILLIAMS, PRESIDENT, CREATION RESEARCH SOCIETY: "Tornado in a Junkyard is a unique presentation of the scientific case against Darwinism, informally written for laymen. If you are looking for a user-friendly explanation of the facts supporting creation,

this book is for you."CONSERVATIVE BOOK CLUB, 12-99: "James Perloff brings all the data together in a volume readily accessible to nonscientific types. His conclusion, carefully drawn: science contradicts Darwinism. . . . Perloff's style, unusually lively, makes Tornado in a Junkyard entertaining as well as educational."ACTOR JACK LEMMON, WHO PLAYED CLARENCE DARROW IN THE 1999 FILM VERSION OF INHERIT THE WIND: "My congratulations to Mr. Perloff for an outstanding piece of work."HOMESCHOOLING TODAY, JAN/FEB-2000: "Why another 'anti-evolution' book? Because Tornado in a Junkyard is different. Author James Perloff, a former fanatical atheist and anti-creationist, understands the other side's point of view. He presents facts that logically disprove Darwinism and unveils the many frauds and lies perpetrated by Darwinists that the public accepts as unshakeable scientific fact."ELLEN MYERS, CREATION RESOURCE LIBRARY, WICHITA, KANSAS: "I've been heavily involved in the creationist movement for many years and am familiar with most of the facts cited in Tornado. However, the racy style, the many excellent photos, and especially the less known details and extensive documentation will now make Tornado my resource of choice in my work."THE NEW AMERICAN, 9-13-99: "Perloff demonstrates--in this reviewer's opinion conclusively--that scientific evidence, when examined honestly, does not support modern Darwinism, but actually contradicts it. . . . This is a very important work, written in an informal and attractive style that is a joy to read."VICKI BRADY, HOST, "HOMESCHOOLING USA": "With so many books out on the evolution/creation debate it is getting hard to choose from good, better and best. James' book falls in the best category. I recommend that every homeschool family and church have a copy for their libraries."CHRISTIAN NEWS, 9-27-99: "Christian News highly recommends Tornado in a Junkyard. Originally written as a 1957 television play and adapted first as an Academy Award-winning 1961 film and as a recent Broadway production, this acclaimed drama brings to life the post-World War II international tribunals at Nuremberg in which Nazi war criminals were brought to justice for their crimes against humanity.
