

Gerontological Nursing Edition 8

"[This book] has been honed into an elegant compendium. This outstanding work should be widely read -- it is perhaps the best example of an integrative approach to gerontology." Score: 94, 4 stars --Doody's This sixth edition of a classic multidisciplinary text for students of gerontology continues to offer practical, reader-friendly information about the physical changes and common pathologies associated with the aging process. It places special emphasis on the psychological and social implications of these changes in the lives of older adults. The book is distinguished by its thorough focus on anatomy and physiology and common health problems pertaining to each body system. This latest edition has been thoroughly updated to present new research findings that differentiate "normal" aging from actual pathology. It provides new data and guidelines on risk factors, nutrition, preventive measures, interventions, and commonly prescribed medications, and includes expanded treatment of complementary and alternative therapies. The book emphasizes the positive aspects of aging and demonstrates how the elderly population can gain greater personal control, through lifestyle changes and preventative health strategies, toward the goal of optimal aging. The book also includes an updated discussion of grief, ethical issues, and funeral options. Written for students of gerontology, social work, human services, nursing, occupational and physical therapy, counseling, and elder law, it presents information that is clearly understandable for those without an extensive background in biology or medicine. The book reinforces information with practical applications of aging data. Physical Change and Aging, Sixth Edition comes with instructor materials, including PowerPoint presentations and test banks for each chapter. An eBook format for Physical Change and Aging is also available. This sixth edition includes new information on: Genetic/DNA theories Dementia and Parkinson's Disease Immunotherapy Lifelong health disparities Pet-assisted therapy Prayer and meditation Pharmacogenetics Gerogogy (self-directed learning) health as public health issue Natural funerals (biodegradable caskets, burial urns, dying at home) 2010 AJN Book of the Year Award Winner in Gerontologic Nursing! Designated a Doody's Core Title! "This is a valuable and timely resource as primary care practitioners are facing a growing aging population. Advanced practice nurses have always been swift to recognize and respond to healthcare challenges, and this resource allows them to be proactive in confronting this evolving healthcare crisis. Nursing faculty can use this resource to design and implement program changes that will help to arm advanced practice nurses with strong gerontological competencies." Score: 100, 5 stars.óDoody's Medical Reviews "This small book couldn't be more timely. As directors of advanced practice nursing (APN) programs struggle to find resources to convert their existing adult APN tracks into adultñgerontology programs, this book offers a clear path for integrating critical content throughout an entire program. For graduate clinical nursing

directors who are challenged to quickly ramp up their gerontology contentóoften without having clinical geriatrics specialty experts among their own facultyóthis book will definitely provide that expertise." --AJN This book presents nursing faculty with clear, user-friendly guidelines for incorporating gerontological content into existing non-gerontological Advanced Practice Nursing (APN) programs without requiring major curricular changes. With almost 50 years of combined experience, the authors share a wealth of knowledge and expertise regarding the rationale and strategies for integrating gerontological content into APN curricula. Topics includes health policy, myths of aging, assessment of functional status, normal versus pathological changes in aging, and more. The authors present strategies to integrate blended technology and multiple resources to ensure that students gain gerontological competency. Key Topics: The impact of aging America on advanced practice nursing Gerontologizing" clinical management courses and shaping the clinical experience Strategies for integrating geriatric e-learning materials into APN curricula Evaluation methods for integrating new content into graduate nursing core, APN core, and specialty courses Complete with detailed lists of print media and Internet resources, this book is a must-have for APN faculty across a number of non-gerontological specialty areas, including family, adult, acute, holistic, palliative, and pediatric care.

Ensure the most effective wellness-oriented nursing care for older adults--in any healthcare setting. Confidently deliver wellness-oriented care for older adults across a changing healthcare environment with the latest evidence-based coverage of gerontological nursing. Comprehensively revised and updated, *Nursing for Wellness in Older Adults, Eighth Edition* fosters your understanding of both the physiologic and psychosocial aspects of aging, as well as broader issues of cultural competence, legal matters, and ethical concerns. Organized around the author's proven *Functional Consequences Theory for Promoting Wellness in Older Adults*, this trusted text focuses on equipping you to work proactively with older adults to promote high levels of functioning and quality of life, despite the limitations associated with aging, disease, and related conditions. *Technology to Promote Wellness in Older Adults* boxes familiarize you with technology-based interventions for promoting wellness in older adults. *Interprofessional Collaboration (IPC)* coverage emphasizes strategies for working with other healthcare professionals in managing care of older patients. *Global Perspective* boxes illustrate proven international approaches to quality gerontological nursing. *Unfolding Patient Stories* authored by the National League for Nursing challenge you to apply your understanding to realistic patient scenarios. *A Transitional Care Unfolding Case Study* helps you manage a patient requiring care across a variety of healthcare settings. *Case Studies* (both multipart and standalone) encourage you to apply nursing theory to real-life situations. *Quality and Safety Education in Nursing (QSEN)* examples help you apply knowledge and skills to care plans for unfolding cases. *Assessment, Intervention, Evidence-Based Practice, Cultural Considerations, Diversity Note, and*

Caregiver Wellness boxes detail helpful approaches and tools for effective wellness-oriented nursing practice. Online Learning Activities point readers to the book's companion web page to access related resources, articles, and evidence-based guidelines. -- Provided by publisher.

Gerontological Nursing: Competencies for Care, Fourth Edition focuses on caring for the elderly by employing a holistic and inter-disciplinary approach. The Fourth Edition will feature a greater emphasis on healthy aging and continues to follow the framework of the Core Competencies of the American Association of Colleges of Nursing (AACN) and the John A. Hartford Foundation Institute for Geriatric Nursing. Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition.

The NICHE model demonstrates improved clinical outcomes, positive fiscal results, enhanced nursing competencies, community recognition, and greater patient, family, and staff satisfaction. This official guidebook to the NICHE model of care provides nurses with the knowledge and skills for delivering best practice in the care of older adults. Primarily hospital-based, NICHE currently has a network of over 600 national and international healthcare organizations. The NICHE model ensures that every adult age 65 and over receives care that promotes dignity, autonomy and function. Written by world-leading experts in gerontological nursing, this distinguished publication serves as the gold standard manual for nurses and all clinical care providers looking to provide optimal, evidence-based care to their older patients. As the leading nurse-driven program designed to address the complex needs of older adults, the NICHE model emphasizes the role of the nurse as a change agent and leader for effective program development, implementation of best practices, and formulation of healthcare policy. This model engages frontline practicing nurses and staff, providing the requisite knowledge and skills to work autonomously with full responsibility and authority in complex healthcare systems. Key Features Reflects the best practices of the over 600 NICHE hospitals Features multiple case studies and exemplars Uses an interprofessional approach to care Draws on leading gerontological nursing experts nationally and internationally Highly relevant to a global audience This publication also serves as the policy, planning and implementation companion to Evidence-Based Geriatric Nursing Protocols for Best Practice, edited by Marie Boltz, PhD, RN, GNP-BC, FGSA, FFAN et al

This new edition of one of the premier references for geriatric nurses in hospital, long-term, and community settings delivers current guidelines, real-life case studies, and evidence-based protocols developed by master educators and practitioners. With a focus on improving quality of care, cost-effectiveness, and outcome, the fifth edition is updated to provide the most current information about care of common clinical conditions and issues in older patients. Several new expert contributors present current guidelines about hip fractures, frailty, perioperative and postoperative care, palliative

care, and senior-friendly emergency departments. Additionally, chapters have been reorganized to enhance logical flow of content and easy information retrieval. Protocols, systematically tested by more than 300 participating NICHE (Nurses Improving Care for Health system Elders) hospitals, are organized in a consistent format and include an overview, evidence-based assessment and intervention strategies, and an illustrative case study with discussion. Additionally, protocols are embedded within chapter text, providing the context and detailed evidence for each. Chapter objectives, annotated references, and evidence ratings for each protocol are provided along with resources for additional study. New to the Fifth Edition: Reorganized to enhance logical flow of information and ease of use Updated and revised Includes new contributions from expert educators and practitioners Provides new chapters on perioperative and postoperative care, general surgical care, care of hip fracture, palliative care, and the senior-friendly emergency department Key Features: Includes PowerPoints and a test bank for instructors Delivers evidence-based, current guidelines and protocols for care of common clinical conditions in the older person Illustrates the application of clinical protocols to real-life practice through case studies and discussion Edited by nationally known geriatric leaders who are endorsed by the Hartford Institute for Geriatric Nursing and NICHE Written for nursing students, nurse leaders, and practitioners at all levels, including those in specialty roles

Publisher's Note: Products purchased from 3rd Party sellers are not guaranteed by the Publisher for quality, authenticity, or access to any online entitlements included with the product. Introductory Mental Health Nursing, 4th Edition Donna Womble, MEd, BS, RN; and Cynthia A. Kincheloe, MSN, BSN, ADN, RN Confidently manage the mental health issues you'll encounter across a wide range of health care settings. Written specifically for LPN/LVN students, Introductory Mental Health Nursing, 4th Edition, equips you for the challenges of modern mental health nursing with clear, direct, clinically relevant information reflecting the most up-to-date perspectives in the field. This acclaimed text establishes essential groundwork then builds on fundamental concepts to instill a confident understanding of the delivery of mental health care, the nursing process and its relation to mental health, and the management of specific psychiatric disorders to prepare you for success from the classroom to your career. Enhanced! Case applications guide you in applying the nursing process to resolve clinical problems. Updated! Chapter-ending Student Worksheets reinforce key concepts through fill-in-the-blank, matching, and multiple-choice NCLEX®-style questions. At a Glance sections highlight or summarize essential information for stronger recall and retention. Just the Facts entries distill critical details for faster, more efficient review. Mind Jogger critical thinking questions promote deeper understanding. At-A-Glance Senior Focus helps you confidently prepare for the care of older adults or elderly clients. Updated terminology helps you ensure the most effective clinical communication.

CoursePoint The same trusted solution, innovation and unmatched support that you have come to expect from CoursePoint is now enhanced with more engaging learning tools and deeper analytics to help prepare students for practice. This powerfully integrated, digital learning solution combines learning tools, case studies, real-time data and the most trusted nursing education content on the market to make curriculum-wide learning more efficient and to meet students where they're at in their learning. And now, it's easier than ever for instructors and students to use, giving them everything they need for course and curriculum success! Coursepoint includes: Engaging course content provides a variety of learning tools to engage students of all learning styles. A more personalized learning approach gives students the content and tools they need at the moment they need it, giving them data for more focused remediation and helping to boost their confidence and competence. Powerful tools, including varying levels of case studies, interactive learning activities, and adaptive learning powered by PrepU, help students learn the critical thinking and clinical judgement skills to help them become practice-ready nurses. Unparalleled reporting provides in-depth dashboards with several data points to track student progress and help identify strengths and weaknesses. Unmatched support includes training coaches, product trainers, and nursing education consultants to help educators and students implement CoursePoint with ease.

Covering both disorders and wellness, Gerontologic Nursing provides the essential information you need to provide the best nursing care to older adults. A body-system organization makes information easy to find, and discussions include health promotion, psychologic and sociocultural issues, and the common medical-surgical problems associated with aging adults. Written by expert educator and clinician Sue Meiner, EdD, RN, CS, GNP, this book also emphasizes topics such as nutrition, chronic illness, emergency treatment, patient teaching, home care, and end-of-life care.

Comprehensive assessment guidelines identify findings that are normal, deviate from normal, and abnormal. A separate Health Promotion chapter and specialty boxes provide information related to promoting healthy lifestyles and preventing disease. Detailed coverage of pain, infection, cancer, chronic illness, loss, death and dying, and substance abuse explains the complex aspects of aging and related care. Cultural Influences chapter and Cultural Awareness boxes focus on clients' specific customs and how they affect your nursing care. Client/Family Teaching boxes help you communicate effectively on self-care. Home Care Tips boxes promote practical, effective care for the homebound older client.

Emergency Treatment boxes highlight critical care in emergency situations. Nutrition boxes discuss the special nutritional needs and concerns of an aging population. Key points help you remember what you've read, and critical thinking activities help expand learned concepts. Up-to-date content includes the latest on hip and knee replacement, Lyme disease, lactose intolerance, upper respiratory infections, current arthritis therapies and treatments, and expanded

information on abuse of older adults. Unique! Nursing Care Plans link NANDA-I nursing diagnoses, NIC priority interventions for specific conditions, and NOC suggested outcomes for guidance in providing appropriate care. Unique! Evidence-Based Practice boxes help you apply the research leading to better outcomes of nursing care. Unique! Nursing Process boxes provide quick and easy access to care information.

Preceded by Basic geriatric nursing / Gloria Hoffmann Wold. 5th ed. c2012.

The bestselling LPN/LVN geriatric nursing textbook, Basic Geriatric Nursing, 5th Edition covers age-appropriate nursing interventions in a variety of health care settings. It includes the theories and concepts of aging, covers expected physiologic and psychosocial changes, and highlights delegation, coordinated care, end-of-life care, patient teaching, quality of life, safety, and home care. This edition is updated with the latest issues and trends in geriatric nursing, including changes to the health care system and demographics. Part of the popular LPN Threads series, Gloria Hoffman Wold's text provides a clear and compassionate introduction to geriatric care. Complete coverage of key topics includes baby boomers and the impact of their aging on the health care system, therapeutic communication, cultural considerations, spiritual influences, evidence-based practice in geriatric nursing, and elder abuse, restraints, and ethical and legal issues in end-of-life care. UNIQUE! Delegation, leadership, and management content is integrated throughout. Nursing Process sections provide a framework for the discussion of the nursing care of the elderly patient as related to specific disorders. UNIQUE! A FREE Study Guide in the back of the book reinforces understanding with scenario-based clinical activities and practice questions. UNIQUE! Nursing interventions are numbered and grouped according to health care setting (e.g., acute care, extended care, home care), in a patient-centered approach emphasizing the unique needs of the older adult. UNIQUE! Nursing Care Plans with critical thinking questions help in understanding how a care plan is developed, how to evaluate care of a patient, and how to apply your knowledge to clinical scenarios. UNIQUE! Critical Thinking boxes help you to assimilate and synthesize information. Clinical Situation boxes present patient scenarios with lessons for appropriate nursing care and patient sensitivity. Coordinated Care boxes address such topics as restraints, elder abuse, and end-of-life care as related to responsibilities of nursing assistants and other health care workers who are supervised by LPN/LVNs. UNIQUE! Complementary and Alternative Therapies boxes address specific therapies commonly used by the geriatric population for health promotion and pain relief. Cultural Considerations boxes encourage culturally sensitive care of older adults. UNIQUE! Patient Teaching boxes highlight health promotion, disease prevention, and age-specific interventions. UNIQUE! LPN Threads make learning easier, featuring an appropriate reading level, key terms with phonetic pronunciations and text page references, chapter objectives, special features boxes, and full-color art, photographs, and design.

Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition. Gerontological Nursing: Competencies for Care, Second Edition is a comprehensive and student-accessible text that offers a holistic and inter-disciplinary approach to caring for the elderly. The framework for the text is built around the Core Competencies set forth by the American Association of Colleges of Nursing (AACN) and the John A. Hartford Foundation Institute for Geriatric Nursing. Building upon their knowledge in prior medical surgical courses, this text gives students the skills and theory needed to provide outstanding care for the growing elderly population. This innovative text is the first of its kind to have over 40 contributing authors from many different disciplines. Some of the key features of the text include chapter outlines, learning objectives, discussion questions, personal reflection boxes, case studies and more! Print+CourseSmart

Ulrich & Canale's Nursing Care Planning Guides, 8th Edition Revised Reprint with 2021-2023 NANDA-I® Updates - E-Book

Nurse practitioners have long required a comprehensive certification review book for the ANCC Gerontological Nurse Practitioner (GNP) exam. This is the first book on the market to provide a thorough review of test content to effectively prepare nurses to successfully pass the GNP certification exam. With almost 200 practice questions culled from the real ANCC test outline, this is the only book nurse practitioners need to pass the ANCC exam. Key features: Includes guidelines on question dissection and analysis Discusses health promotion and disease prevention Covers assessment of acute and chronic illness Provides information on clinical management and pharmacological/non-pharmacological interventions Describes the nurse practitioner and patient relationship Discusses professional role and policy issues GERONTOLOGICAL NURSING, 3/e is a comprehensive, research-based, and up-to-date guide to nursing care for older adults in all settings. It brings together essential information about normal and pathological changes associated with aging; healthy aging; common diseases of aging; and key psychosocial, cultural, and public health issues. Reflecting today's emphasis on evidence-based practice and appropriate delivery of scarce healthcare resources, this text presents new best practices and QSEN standards throughout, promoting more effective assessment, diagnosis, planning, and outcome evaluation. The text's multidisciplinary approaches help nurses "add life to years," not just extend life. Its coverage of acute and chronic diseases includes nursing implications, atypical presentation, functional implications, pharmacology, evaluation, etiology, risk factors, and complications; the text also includes a full chapter on multisystem diseases. This book supports safe, effective, and appropriate practice in the home, hospitals, long-term care, and hospice settings.

The third edition of the highly acclaimed Essentials of Clinical Geriatrics gives you clear guidelines on diagnosis, treatment, and follow-up

care of all common geriatric disorders. Plus, you'll review important nonclinical issues, including environmental factors, documentation issues, ethics, and demographics. At the heart of the text is its problem-based approach to diagnosis and its succinct, but complete, review of management strategies. Look for this as you review care of the nursing home patient, incontinence, falls, confusion, long-term care, approach to the patient, and much more. And an appendix of Clinical Worksheets provides practical advice for data collection.

With a strong focus on health and wellness, this gerontological nursing text offers you a holistic perspective to caring for older adults. Designed to facilitate the healthiest adaptation possible, this text identifies potential problems that may occur and the means to address complications, alleviate discomfort, and help older adults lead healthy lives. Disease processes are discussed in the context of healthy adaptation, nursing support, and nursing responsibilities to help you gain an understanding of your clients' experience. Focus on health and wellness establishes a positive perspective to aging. Careful attention to age, cultural, and gender differences are integrated throughout to help you understand these important considerations when caring for older adults. Healthy aging strategies maximize the healthiest behaviors of clients with dementia and their caregivers. Consistent chapter organization includes learning objectives, research, and study questions/activities to make information easy to find and use. Incorporates assessment guidelines throughout provide useful tools for practice. End-of-chapter activities and discussion questions help you expand your knowledge and understanding of the content. Resource lists provide you with additional means to explore ways to care for the older adult. Incorporates the core competencies identified by the AACN and the Hartford Foundation Institute for Geriatric Nursing. Healthy People 2010 boxes assist you in integrating knowledge about healthy aging considerations. Evidence-Based Practice boxes summarize research findings that confirm effective practices or identify practices with unknown, ineffective, or harmful effects. Expanded sexuality-related content includes older adults living with AIDS and STDs. Genetics section reflects the emergence of the role of genetics in gerontological assessment.

Praise for the first edition: "This is an excellent teaching guide and resource manual for instructors, gerontological nursing students, and practicing nurses and social workers who wish to learn more about geriatric concerns and care. It will be kept by nursing students long after they graduate as a guide to resources that will be valuable throughout their nursing careers. As a home care nurse working mainly with the geriatric community, I found the resources helpful in my practice. As an instructor, I found the book to be a very useful guide for teaching geriatrics." Score: 90, 4 Stars —Doody's Medical Reviews "[This] is a unique volume that effectively addresses the lack of gerontology case studies for use with undergraduate nursing students. Case studies are a pedagogically powerful approach to active learning that offer opportunities to apply content to clinical practice." —The Gerontologist "The case narrative approach of this book promotes active learning that is more meaningful to students (and practicing nurses) and more likely to increase the transfer of evidence into practice. An excellent resource for faculty (staff educators) to facilitate critical learning skills." —Liz Capezuti, PhD, RN, FAAN Dr. John W. Rowe Professor in Successful Aging Co-Director, Hartford Institute for Geriatric Nursing New York University College of Nursing Vivid case examples help guide nurses in developing appropriate interventions that include complementary and alternative health therapies and provide a basis for evaluating outcomes. Exercises interspersed throughout each case study include numerous open-ended and multiple-choice questions to facilitate learning and critical thinking. The text is unique in that some of the presented cases focus on psychosocial issues such as gambling addiction, hoarding behavior, emergency preparedness, and long-distance caregiving. Cases also depict geriatric clients who are living healthy, productive lives to counter myths and negative attitudes about older adults. Scenarios demonstrating ethical dilemmas prepare students to appropriately respond to "gray area" situations. The text is geared for AACN and NLN accreditation and is organized according to

the needs of actual clinical settings. With cases that take place in the home and community or within primary, acute, and long-term care facilities, this book will be useful for courses specific to gerontology nursing or across any nursing curriculum. New to the Second Edition: A completely new section of Aging Issues Affecting the Family New cases addressing health care disparities, aging in place, and prevention of catheter-associated urinary tract infection Additional contemporary case studies The addition of Quality for Safety in Nursing Education (QSEN) initiatives A greater focus on prioritization and delegation of client's needs infused throughout exercises

Gain the nursing skills you need to provide wellness-based care for older adults! Ebersole and Hess' *Gerontological Nursing & Healthy Aging*, 6th Edition uses a holistic approach to describe compassionate care along a continuum of wellness. Designed to promote healthy aging regardless of the patient's situation or disorder, this text provides best-practice guidelines in covering physical, psychosocial, spiritual, and cognitive health. New to this edition are Next Generation NCLEX®-style case studies, updates on measuring clinical judgment, expanded coverage of core competencies, and more. Written by gerontological nursing experts Theris Touhy and Kathleen Jett, this concise text provides a solid foundation in every aspect of healthy aging. Focus on health and wellness provides the evidence-based information and strategies needed to promote healthy aging. Key concepts, learning activities, and discussion questions in every chapter emphasize the information needed to enhance care. Recommended competencies from the AACN and the Hartford Institute for Geriatric Nursing are integrated throughout. Discussion of disease processes is placed in the context of healthy adaptation, nursing support, and responsibilities. Easy-to-use information on nursing techniques and communication appears with the associated disorders, symptoms, and situations. Tips for Best Practice and Resources for Best Practice boxes provide insight into proven methods of nursing care. Discussions of nursing and interprofessional actions help students learn to enhance wellness, maintain optimal function, and prevent unnecessary disability. Coverage of age, cultural, racial, and gender differences highlights these important considerations in caring for older adults. NEW! Updates reflect the NCSBN Clinical Judgment Model. NEW! Next Generation NCLEX® (NGN)-style case studies provide optimal preparation for the Next Generation NCLEX Examination. NEW! Specialized information addresses the unique needs of older adults such as atypical disease presentation, geriatric syndromes, neurocognitive disorders, quality of life with chronic illness, legal and ethical issues, and mental health challenges such as depression and substance abuse. NEW! Coverage of competencies of expanding nursing roles in the care of older adults addresses the continuum of care. NEW! Gerontological expertise is incorporated into nursing actions and complements other nursing texts (including med-surg, community health, mental health, and assessment books) used in programs without a freestanding gerontological nursing course. NEW! Expanded content includes information on COPD guidelines, medication use and misuse, Alzheimer's Disease, wound care guidelines, diagnosis and treatment of sleep-disordered breathing, joint replacement, caregiver strain, hospice and transitional care, and more.

This Study Guide is the perfect companion to *Fundamentals of Nursing Care: Concepts, Connections & Skills*, 2nd edition. It offers practice the nursing student needs to hone their critical-thinking and problem-solving skills while mastering the principles, concepts, and procedures essential to success in the classroom and in practice.

If you are studying for the adult-gerontology primary care nurse practitioner certification exam, the highly acclaimed *Adult-Gerontology Nurse Practitioner Certification Intensive Review* is a must-have resource, and with interactive digital prep included with purchase, it is easier than ever to study for the AGNP exam. Lauded for its concise, well-organized format, this fourth edition has been significantly revised and updated to feature key information about the new AANPCB and ANCC certification exams, all new end-of-chapter review questions, and new full-color

images. The fourth edition also features four practice tests with hundreds of new questions and rationales—800 questions in total. Extensive test-taking techniques and question dissection and analysis chapters help you identify the best clues during the problem-solving process so that you can strategically master the certification exam. Designed to help AGNP candidates boost their confidence through intensive review and high-quality questions, the fourth edition continues to provide succinct, precisely targeted “need-to-know” details of diseases and classic presentations you can expect to see in practice in patients across the life span. Organized by body system, chapters are consistently formatted to include Danger Signals, Normal Findings, Lab Findings, Benign Variants, and Disease Review topics. Each chapter features valuable Exam Tips and Clinical Pearls that highlight key considerations and information likely to be encountered on the exam, ideal for a last-minute refresher before test day. Ensure success by making this essential resource—praised by thousands for helping them pass their certification—a key part of your exam prep study regimen. Key Features: Includes updated information reflecting the new AANPCB and ANCC certification exams Introduces new end-of-chapter review questions to help you assess knowledge application and retention Features four practice tests with hundreds of new questions and rationales Provides a succinct and highly targeted review of diseases commonly seen in primary care, updated clinical information, all new color photos, and Exam Tips and Clinical Pearls to highlight key exam content Outlines Danger Signals, Normal Findings, Lab Findings, and Benign Variants in physical assessment of each body system Delineates strategic question-dissection techniques to simplify the problem-solving process Offers an intensive pharmacology review and review of professional issues—ethical guidelines, professional roles, reimbursement, research, evidence-based medicine and epidemiology, and cultural considerations

As the world population ages and people live longer, nurses and healthcare workers, no matter what area they work in, will encounter older people. This guide aims to provide you with the basic but fundamental knowledge you will need to care for older people.

GERONTOLOGIC NURSING provides comprehensive coverage of health promotion, gerontologic concepts and issues, and medical-surgical problems associated with the older adult. Divided into seven parts, each chapter follows a consistent organization including learning objectives, emergency boxes, client and family teaching boxes, research boxes, key points, special insights, and new health promotion and nutrition boxes. The second edition also includes a new chapter on health promotion, expanded chapters on nutrition and functional assessment, and a dedicated MERLIN which provides the student and instructor with additional up-to-date tools and resources to enhance and expand their content knowledge. Highlights fundamental aging theories to provide a basis for biological and psychosocial aspects of quality nursing care. Provides complete and comprehensive coverage of assessment recapping normal, deviations from normal and abnormal findings. Uses a 5-step nursing process format to provide the consistent framework for presentation of nursing care. Features care plans with clinical situations for those disorders most prevalent in the elderly. Includes a separate chapter on cultural influences and integrates cultural awareness boxes throughout to focus on specific customs related to how a nurse might care for the aging client. Includes separate chapters focusing on acute, home and long term care to provide a complete discussion of care in each of these settings. Provides detailed coverage of pain, infection, cancer, chronic illness, loss, death and dying, and substance abuse to explain potentially complex aspects of aging and the related care. Provides a consistent chapter pedagogy including learning objectives, summary, key points, and critical thinking exercises. Includes Client/Family teaching boxes that emphasize key aspects of practice and teaching for self-care. Highlights Home Care Tips Boxes to promote practical, effective care for the home-bound older client. Integrates Insight boxes that provide realistic vignettes on caring for the elderly and helpful hints from today's practicing gerontological nurses. Provides Emergency Treatment boxes that

alert the student to danger signs and list immediate interventions. Includes research boxes with abstracts of current research and implications for practice. Provides a nuts-and-bolts guide to blood-product administration for adult and pediatric patients. Outlines and explains transfusion reactions. Describes the effect of different types of fluids used in resuscitation. Includes formulas used in fluid administration. Provides the most up-to-date information about oxygen delivery devices. Presents information on how to help a Spanish-speaking child identify his/her level of pain. Includes the pediatric coma scale. Features the pediatric trauma score which is used to help evaluate the severity of injury. Provides information about domestic violence in the Mental Health Conditions chapter. Includes a section on the role of the Sexual Assault Nurse Examiner (SANE) and the latest findings on sexual assault. Presents additional information on mammalian bites and anaphylactic shock. Highlights major points of care for quick reference with bold or italicized text. Presents pediatric and adult content separately in the reference section of the book for fast and easy access. Includes stroke and hypothermia algorithms. Covers the latest information on conscious sedation according to JCAHO standards, including a table on deep sedation. Features several new and updated tables which include the following information: conversion of Centigrade and Fahrenheit, updated normal lab values, updated medication tables, etc. (Includes a FREE MERLIN website at: www.harcourthealth.com/MERLIN/Lueckenotte/)

Matteson & McConnell's Gerontological Nursing, 3rd Edition provides comprehensive, research-based information on nursing care of older adults. Beginning with the basics, the text uses a systems approach to describe the aging process from wellness to illness. It also describes physiological and psychological aspects of aging in detail, as well as assessment and practice in all settings using the nursing process. Each chapter incorporates a research and theory-based approach to the aging process. Content is comprehensive and focuses on caring for the older adult. The text examines the differences between normal aging conditions and clinical problems/conditions. Competencies and Roles in Gerontological Nursing section focuses on the process that nurses, especially clinical nurse specialists, use to impact gerontological nursing care. Nursing care plans provide the practitioner with nursing care scenarios applied to clinical practice. Expanded content on functional assessment, including addressing communication issues, both verbal and non-verbal, alerts the reader to vital issues that may affect the patient's plan of care. Color insert visually complements material on the integumentary section as it illustrates some of the major integumentary conditions affecting the gerontologic population. Reflections boxes written by experts across different nursing fields share personal experiences related to the chapters' content. Toward Better Health boxes provide key considerations for promoting healthy lifestyles. Assessment boxes emphasize specific physical tests and observations to make when assessing a patient. Age-Related Changes boxes detail the ways in which particular body systems are affected by the aging process. New chapters on End of Life Care, Evidence-Based Practice, and Assisted Living Care give the reader a more comprehensive look at gerontological nursing care.

Essentials of Gerontological Nursing presents the best practices needed to care for older adults. Its brief, yet

comprehensive, grasp of issues in elder care is a refreshing addition to the current literature, which is more commonly focused on theory than on clinical practice. Designed primarily for students in gerontological nursing courses in BSN and graduate programs, the book provides: Essential clinical information and "best practices" needed to care for older adults Current research and new patient approaches in gerontological nursing Overviews of rarely discussed issues, such as elder abuse, cultural considerations, and restraint alternatives Clinical specifications and practical applications Content designed to fit into a one-semester course Essentials of Gerontological Nursing is everything the nursing student needs to know when caring for older adults.

Discover a wellness-based, holistic approach to older adult care. Ebersole & Hess' Gerontological Nursing and Healthy Aging, 5th Edition is the only gerontological nursing text on the market that focuses on this thoughtful, organic method of care. Designed to facilitate healthy aging regardless of the situation or disease process, this text goes beyond simply tracking recommended treatments to addressing complications, alleviating discomfort, and helping older adults lead healthy lives. Featuring an updated four-color design, additional information on long-term care, evidence-based practice boxes, safety alerts, expanded tables, and careful attention to age, gender, and cultural differences, Ebersole & Hess' Gerontological Nursing and Healthy Aging is the most complete text on the market. Focus on health and wellness helps you gain an understanding of the patient's experience. Safety Alerts highlight safe practices and quality of care QSEN competencies. Careful attention to age, cultural, and gender differences helps you to understand these important considerations in caring for older adults. AACN and the Hartford Institute for Geriatric Nursing core competencies integrated throughout. Evidence-Based Practice boxes summarize research findings that confirm effective practices or identify practices with unknown, ineffective, or harmful effects. Activities and discussion questions at the end of every chapter equip you with the information that you need to assess the patient. Healthy People 2020 boxes integrate information about healthy aging. Expanded tables, boxes, and forms, including the latest scales and guidelines for proper health assessment make information easy to find and use. NEW! New four-color design provides a higher-level of detail and readability to caregiving procedures. NEW! New chapter on Caregiving includes expanded coverage of abuse and neglect. NEW! Expanded content about Long-Term and Transitional Care added to chapter six. NEW! Expanded Safety coverage spans two separate chapters. NEW! Expanded Nutrition and Hydration content divided into two separate chapters.

Gerontological Nursing Wolters Kluwer Law & Business Basic Geriatric Nursing - E-Book Elsevier Health Sciences
This first edition Australian text aligns nursing care principles and practice to the unique requirements of older people. Written by leading academics and clinicians, Gerontological Nursing: A holistic approach to the care of older people

covers the essential skills of gerontological care with a focus on chronic diseases, neurocognitive disorders, mental health, quality of life and healthy ageing, palliative care and bereavement, safety issues, and the role of the caregiver. As nurses play an ever more critical role in supporting the needs of an ageing population, this essential text will enable nursing students to navigate the complexities of older people's healthcare, promote healthy ageing, and help people to live well. (Gerontology)

Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition. Gerontological Nursing: Competencies for Care, Second Edition is a comprehensive and student-accessible text that offers a holistic and inter-disciplinary approach to caring for the elderly. The framework for the text is built around the Core Competencies set forth by the American Association of Colleges of Nursing (AACN) and the John A. Hartford Foundation Institute for Geriatric Nursing. Building upon their knowledge in prior medical surgical courses, this text gives students the skills and theory needed to provide outstanding care for the growing elderly population. It is the first of its

kind to have more than 40 contributing authors from many different disciplines. Some of the key features include chapter outlines, learning objectives, discussion questions, personal reflection boxes, and case studies.

(1E 1991) Compares DSM-IV & related NANDA diagnoses/incl. critical thinking questions of a legal or ethical nature/etc Designated a Doody's Core Title! Named an Outstanding Academic Title for 2006 by CHOICE "Those who are interested in the care of older individuals will find this book thoughtful, exciting, and useful...Highly recommended." --CHOICE Learn the history of the development of geriatric nursing as a specialty, as well as the current state of geriatric nursing, from the stories of pioneers in this field. Covering the scope of the specialty: How to become a geriatric nurse Geriatric nursing organizations and publications Standards of practice Certification and licensure Future directions This text provides both inspirational stories of nursing and practical information on how you can find resources, develop ideas, and access research in order to become a successful geriatric nurse.

Prepare for a successful career in caring for geriatric populations! Williams' Basic Geriatric Nursing, 7th edition is an easy-to-read text which presents the theories and concepts of aging along with appropriate nursing interventions. This comprehensive book helps you understand the unique physiologic and psychosocial changes that affect the elderly adult. Threaded throughout this new edition are practical QSEN boxes and Nurse Alert features, which highlight safety, cultural considerations, health promotion, coordinated care, and home care specific to elderly patients. In addition, an online Study Guide, NCLEX®-PN review questions, and real-world clinical situation boxes help you to study for exams and apply concepts to practice. Coordinated Care boxes address such topics as restraints, elder abuse, and end-of-life care as related to responsibilities of nursing assistants and other health care workers who are supervised by LPN/LVNs. Clinical Situation boxes present patient scenarios with lessons for appropriate nursing care and patient sensitivity. UNIQUE! A FREE Study Guide, presented in a comprehensive PDF format on Evolve, reinforces your understanding. 10th grade reading level makes learning easier for you. Nursing Care Plans include Critical Thinking boxes to help you to assimilate and synthesize information. Nursing Process sections provide a framework for the discussion of the nursing care of the elderly patient as related to specific disorders. Cultural Considerations throughout text cover biocultural variations as well as health promotion for specific ethnic groups so you can provide culturally competent care. Health Promotion and Patient Teaching boxes highlight health promotion, disease prevention, and age-specific interventions. Home Health Considerations boxes provide information on home health care for the older adult. NEW! QSEN boxes provide you with the knowledge, skills, and attitudes necessary to continuously improve the quality and safety of care of
