Written by two experienced psychology teachers, this is the second edition of Psychology Sorted Book 1, in the recent series for students and teachers. It is structured to help them understand and select from the wealth of psychological research that is relevant to the IB Diploma Psychology syllabus. The book has been developed independently of the International Baccalaureate Organization (IB), which in no way endorses it. However, the topics and content are especially chosen to be relevant to the 2019 IB Diploma psychology curriculum, while also providing useful support to teachers and students of other curricula, including those taught as part of university courses. This second edition has been updated to include new material suggested by the IB in December 2019. The book provides organised overview grids suggesting classic and recent key studies for the core biological, cognitive and sociocultural approaches. Links are made between content and studies from other areas, including the options. There are hyperlinks and details for further relevant resources, journal articles and media talks and summaries of every study, written in clear language and including evaluation points. The authors have also included critical thinking suggestions for each topic and a full bibliography and author index. Further support is available from the authors' Psychology Sorted blog and their Psychology Sorted Facebook page

Written by an experienced teacher and senior examiner with an in-depth understanding of teaching and assessments for the IB psychology SL and HL courses. This new TestPrep book helps students to familiarise themselves with the psychology SL and HL exams. It provides information about the approach of the papers and the types of exam questions they will come across. Students can practice answering the questions by writing directly into the book, just like they do in the exam. And, as they work through, there are strategies, hints and support for answering the questions PLUS fully worked solutions at the end. From some excellent and unique practice questions for Paper 1 to invaluable advice from the experts on how to tackle Paper 2 (plus some unseen stimulus material for HL students for Paper 3), this book provides essential exam practice support for students revising for their psychology exams. Students will: understand what to expect from the psychology exam papers - with a breakdown of the format of Paper 1 (SL and HL), Paper 2 (SL and HL) and Paper 3 (HL only), the command terms and the assessment objectives see example answers to Paper 1, Paper 2 and Paper 3-style questions - with brand new, unseen sample answers to exam-style questions and answer analysis from the point of view of an examiner test themselves - with three complete sets of exam-style psychology practice papers (the first set includes loads of additional tips, examiner commentary and support to guide students to achieve high marks; the second set has fewer helpful prompts; the last set has no additional help and is designed so students can have a go at it themselves!) check answers - with fully-worked solutions in the back of the book.
