“THAT’S NO MOON.” –Obi-Wan Kenobi The Death Star’s name says it all, with bone-chilling accuracy. It is a virtual world unto itself—equipped with uncanny power for a singularly brutal purpose: to obliterate entire planets in the blink of an eye. Its annihilation of the planet Alderaan, at the merciless command of Grand Moff Tarkin, lives in infamy. And its own ultimate destruction, at the hands of Luke Skywalker, is the stuff of legend. But what is the whole story, and who are the players, behind the creation of this world-killing satellite of doom? The near extermination of the Jedi order cleared the way for Palpatine—power-hungry Senator and Sith Lord—to seize control of the Republic, declare himself Emperor, and usher in a fearsome, totalitarian regime. But even with the dreaded Darth Vader enforcing Palpatine’s sinister will, the threat of rebellion still looms. And the Emperor knows that only abject fear—and the ability to punish dissent with devastating consequences—can ensure his unchallenged control of the galaxy. Enter ambitious and ruthless government official Wilhuff Tarkin, architect of the Emperor’s terrifying dream come true. From inception to completion, construction

2020 IBPA Award Winner: “Even if, like me, you have a lifelong obsession with Norse myths, I promise you you’ve never seen them like this.” —Lev Grossman In the midst of a bloody battle between giants, Asgardian gods, and humans, deceit and betrayal run wild. One warrior must fight to discover who she can trust and beat the odds to determine the ultimate fate of her people. She trained her whole life to become the strongest warrior of Jotunheim, to become the beloved champion of her gods. But when the time came to finally prove her strength, Vei was cast into the sea by the very god she fought for. Rescued by a Viking ship, Vei returns to Jotunheim, home of the legendary giants. There she finds herself caught in the Meistarileikir, a bloody game between the humans, the giants, and the gods of Asgard that will determine who will have the right to rule the land of Midgard. Having lost the confidence of her own god, Vei must take her place in the Meistarileikir and fight not only for the control of Midgard, but for her very life, in this epic battle against daring warriors, fearsome monsters, and even the gods themselves. A bestseller in Sweden, Vei weaves together an incredible tale that pits man against God and God against God in an outstanding Hunger Games-meets-Norse mythology graphic novel.

After the Clone Wars, the Galactic Empire spared no expense to build a massive fleet of warships to enforce Imperial rule, intimidate defenseless worlds, and destroy all opposition. However, the Imperial Navy underestimated Rebel Alliance fighter pilots, who flew X-wing, Y-wing, A-wing, U-wing and B-wing starfighters, and whatever else they could obtain to fight their Imperial enemies. Decades later, Resistance pilots would fly next-generation versions of Rebel starfighters against the First Order. The Rebel Starfighters Owners’ Workshop Manual presents a thorough history of the starfighters that served the Rebel Alliance and the Resistance. The history includes design origins, production, and modifications for each Rebel starfighter, and is fully illustrated with numerous photographs, schematics, exploded diagrams, and computer-generated artwork by Star Wars vehicle experts Chris Reiff and Chris Trevas. Text is by Ryder Windham, author and co-author of more than 70 Star Wars books. This Haynes Manual is the most thorough technical guide to Rebel starfighters available, and is fully authorized and approved by Lucasfilm.

A BEST BOOK OF THE YEAR: NPR, Slate, Publishers Weekly, Goodreads Following the success of The Accidental Billionaires and Moneyball comes Console Wars—a mesmerizing, behind-the-scenes business thriller that chronicles how Sega, a small, scrappy gaming company led by an unlikely visionary and a team of rebels, took on the juggernaut Nintendo and revolutionized the video game industry. In 1990, Nintendo had a virtual monopoly on the video game industry. Sega, on the other hand, was just a faltering arcade company with big aspirations and even bigger personalities. But that would all change with the arrival of Tom Kalinske, a man who knew nothing about videogames and everything about fighting uphill battles. His unconventional tactics, combined with the blood, sweat and bold ideas of his renegade employees, transformed Sega and eventually led to a ruthless David-and-Goliath showdown with rival Nintendo. The battle was vicious, relentless, and highly profitable, eventually sparking a global corporate war that would be fought on several fronts: from living rooms and schoolyards to boardrooms and Congress. It was a once-in-a-lifetime, no-holds-barred conflict that pitted brother against brother, kid against adult, Sonic against Mario, and the US against Japan. Based on over two hundred interviews with former Sega and Nintendo employees, Console Wars is the underdog tale of how Kalinske miraculously turned an industry punchline into a market leader. It's the story of how a humble family man, with an extraordinary imagination and a gift for turning problems into competitive advantages, inspired a team of underdogs to slay a giant and, as a result, birth a \$60 billion dollar industry.
