Great leadership isn't a mystery, but a skill that can be learned. Throughout your life, you've always recognized "it" when you saw it--that indescribable, appealing quality that tells you loud and clear this person is a leader, someone you should trust, follow, and learn from. And you've always told yourself, if only you had that "it factor" inside you that could inspire, motivate, and lead others in the same way. Well, you do . . . and you can! Nobody--not even the greatest you have ever seen--comes into the world a natural leader. But somewhere along the way, these people who entered the world in the same you did transformed into the kind of magnetic individuals who inspire others to follow their lead. Success expert Brian Tracy has spent years studying the world's greatest leaders and believes that everyone has it inside them to: Inspire trust, confidence, and loyalty Instill a sense of meaning and purpose in your organization Tap into the motivation and enthusiasm that compels others to commit to your vision Clearly communicate goals and strategies and gain buy-in Build winning teams Elicit extraordinary performance from ordinary people Become the person seen as most likely to lead the organization to victory And more Don't fall for the lie that says some are born leaders and the rest of us are simply their followers. You are just as capable as anyone! Packed with practical, proven methods, Leadership, a indispensable little guide will help you unlock your leadership potential.

The world of investing normally sees experts telling us the 'right' way to manage our money. How often do these experts pull back the curtain and tell us how they invest their own money? Never. How I Invest My Money changes that. In this unprecedented collection, 25 financial experts share how they navigate markets with their own capital. In this honest rendering of how they invest, save, spend, give, and borrow, this group of portfolio managers, financial advisors, venture capitalists and other experts detail the 'how' and the 'why' of their investments. They share stories about their childhood, their families, the struggles they face and the aspirations they hold. Sometimes raw, always revealing, these stories detail the indelible relationship between our money and our values. Taken as a whole, these essays powerfully demonstrate that there is no single 'right' way to save, spend, and invest. We see a kaleidoscope of perspectives on stocks, bonds, real assets, funds, charity, and other means of achieving the life one desires. With engaging illustrations throughout by Carl Richards, How I Invest My Money inspires readers to think creatively about their financial decisions and how money figures in the broader quest for a contented life.
