

Journal Of Pediatric Oncology Nursing

This useful book is a single source of guidelines required by the editors of 101 nursing journals. The purpose is to provide information about nursing journals for people who are submitting manuscripts for publication.

Book Contemporary Pediatrics with its 17 chapters will help get us and patients enlightened with the new developments on the contemporary pediatric issues. In this book volume, beyond classical themes, a different approach was made to current pediatric issues and topics. This volume, as understood from its title, describes nutritional infant health and some interesting topics from pediatric subspecialties such as cardiology, hemato-oncology and infectious diseases.

Cancer in Adolescents and Young Adults is a practical guide to cancer care in adolescents and young adults. It considers the impact of diagnosis on individuals, and their families, as well as examining the impact on the health professionals responsible for their care. There are sections focussing on the adolescent's experience of cancer and ongoing care needs during treatment, and on life after cancer, including rehabilitation and palliative care. • Builds on the forthcoming NICE guidelines on Supportive Cancer Care for Children & Young People, and recent Department of Health guidelines & policy initiatives • Adopts an integrated inter-professional approach • Contains evidence-based contributions from leading professionals in cancer care

Cancer in Adolescents and Young Adults is an essential resource for all those involved with the provision of care and support for adolescents and young adults with cancer. About the Editors: Dr Daniel Kelly is Reader in Cancer & Palliative Care, Middlesex University, London.

Dr Faith Gibson is Senior Lecturer in Children's Nursing Research, Institute of Child Health, Great Ormond Street Hospital and King's College London.

Paediatric Neurosurgery for Nurses: Evidence-based care for children and their families provides accessible and up-to-date information for nurses working in paediatric neurosurgery. Referring throughout to the evidence-base for care and interventions, this complex area is described and explained in a meaningful and easily understandable way. The text includes chapters on the underpinning knowledge and principles for the care of children who need neurosurgery as well as the following common neurological problems: Hydrocephalus Traumatic Brain Injury Craniosynostosis Brain Tumours Surgical management of epilepsy in children Cerebrovascular disorders Neural tube defects The complexity of the nervous system and principles of care are presented logically with points to consider and essential care clearly highlighted and, where available, evidence-based practice is presented. It includes a range of pedagogical features, such as chapter overviews and summaries, diagrams, sample care plans, text boxes and a glossary. This book is essential reading for pre-registration nursing students and newly qualified nurses but will also be of use to allied healthcare professionals working with children and young people requiring neurosurgery.

The health of babies, children and young people is fundamentally different from that of adults, so their healthcare must reflect their unique needs and engage their parents, family members and communities. Paediatric Nursing in Australia and New Zealand introduces nursing students to the care of infants, children, young people and their families in a range of clinical and community settings across Australasia. This third edition includes New Zealand content and an increased focus on families. New chapters cover health services available for

Bookmark File PDF Journal Of Pediatric Oncology Nursing

Aboriginal, Torres Strait Islander and M?ori children, the transition to parenthood for new families, children's sleep patterns and behaviour, and paediatric health in school settings. Case studies and reflective questions encourage students to develop critical thinking and problem-solving skills. Written by an expert team, Paediatric Nursing in Australia and New Zealand equips future nurses with the knowledge and skills to provide evidence-based care to babies, children and their families.

Who's Who of Canadian Women is a guide to the most powerful and innovative women in Canada. Celebrating the talents and achievement of over 3,700 women, Who's Who of Canadian Women includes women from all over Canada, in all fields, including agriculture, academia, law, business, politics, journalism, religion, sports and entertainment. Each biography includes such information as personal data, education, career history, current employment, affiliations, interests and honours. A special comment section reveals personal thoughts, goals, and achievements of the profiled individual. Entries are indexed by employment of affiliation for easy reference. Published every two years, Who's Who of Canadian Women selects its biographees on merit alone. This collection is an essential resource for all those interested in the achievements of Canadian women.

Nursing women Christmas Gifts and NP Hematology Nurse Student Appreciation Gifts or birthday Gift.

The development of this inaugural Handbook of Oncology Social Work: Psychosocial Care for People With Cancer provides a repository of the scope of oncology social workers' clinical practice, education, research, policy and program leadership in the psychosocial care of people with cancer and their families. It focuses on the unique synergy of social work perspectives, values, knowledge, and skills with the psychosocial needs of cancer patients, their families, and the health care systems in which they are treated. It addresses both the science and art of psychosocial care and identifies the increasing specialization of oncology social work related to its unique knowledge base, skills, role, and the progressive complexity of psychosocial challenges for patients with cancer. This Handbook equips the reader with all that we know today in oncology social work about patient and family centered care, distress screening, genetics, survivorship, care coordination, sociocultural and economic diversity, legal and ethical matters, clinical work with adults living with cancer, cancer across the lifespan, their caregivers and families, pediatrics, loss and grief, professional career development, leadership, and innovation. Our hope is that in reading this Handbook you will identify new areas where each of you can

leave your mark as innovators and change agents in our evolving field of practice.

This 21st volume of the Annual Review synthesizes nursing research to date on child health and illness, including family issues. Ages range from pre-term babies to adolescents, with a focus on chronic illness. A special final chapter reviews the highlights of the past 10 volumes of the Annual Review of Nursing Research, to mark the 20th anniversary of the Review.

Adherence and Self-Management in Pediatric Populations addresses the contemporary theories, evidence-based assessments, and intervention approaches for common pediatric chronic illnesses. An introductory chapter summarizes the state of the field and provides a general foundation in adherence and self-management. Subsequent chapters focus on specific diseases, ensuring that the scope of knowledge contained therein is current and thorough, especially as the assessments and interventions can be specific to each disease. Case examples are included within each chapter to illustrate the application of these approaches. The book ends with an emerging areas chapter to illuminate the future of adherence science and clinical work. This book will be extremely helpful to professionals beginning to treat youth with suboptimal adherence or for those who conduct adherence research. Experts in the field will benefit from the synthesized literature to aid in clinical decision-making and advancing adherence science. Organized by disease for quick reference Provides case examples to illustrate concepts Incorporates technology-focused measurement and intervention approaches (mobile and electronic health) throughout

Published in collaboration with the ONS, this text is the definitive source for concepts and practices in oncology nursing and can be used for orientation of nurses to oncology, inservice and continuing education programs for practicing nurses, a basis for curriculum development in graduate programs, and as a review tool for certification. Based on the blueprint of the certification examination by the ONCC (Oncology Nursing Certification Corporation), the book

Bookmark File PDF Journal Of Pediatric Oncology Nursing

is in outline format to help readers focus on the most important information. Instructor resources available; contact your sales representative for details. Covers the entire scope of the specialty ensuring comprehensive coverage Outline format helps the reader focus on the most important information Effective guide for teaching and learning for in-service, continuing education, and academic programs Powerful study tool for the ONCC certification exam Tables and figures illustrate complex concepts * Entirely revised, updated, and expanded to reflect the current state of oncology nursing practice. * Expanded pain management content. * New content on nonpharmacologic interventions (e.g. heat massage, imagery). * New content on alternative therapies.

Adolescence is typically fraught with problems, even under optimal conditions. And when chronic illness is added to the picture, medical and related social issues can complicate, and even disrupt, the course of development. The first text geared toward the integrated care setting, *Behavioral Approaches to Chronic Disease in Adolescence* offers clinicians an evidence-based guide to helping their young clients manage their chronic conditions and treating the psychosocial effects—from school problems and stigma to noncompliance and depression—that frequently follow diagnosis. Expert contributors present up-to-date information on epidemiology, symptoms, comorbid psychosocial problems, and treatment options for a variety of common illnesses, arranged to foster effective interventions for adolescents and efficient collaboration with other care providers in the team. Coverage is comprehensive, authoritative, and accessible, ensuring best practice while respecting each client's individuality: Empirically-based treatment guidelines for illnesses commonly found in youth, including Type 1 and 2 diabetes, asthma, cancer, obesity, and chronic pain. Overview of the

physiology of adolescence, particularly as it may be affected by medical conditions, and of adolescent brain development. Latest findings on the role of families in teens' adjustment to illness and treatment. Cultural considerations affecting ethnically diverse clients and their families. Detailed discussions of ethical issues relevant to treating chronically ill young people, and of controversies involving pharmacotherapy with this population. Chapters contain useful handouts for clinicians and clients. Taking Care of the Practitioner" chapter with helpful strategies for avoiding burnout. Its emphasis on specific practical information makes Behavioral Approaches to Chronic Disease in Adolescence a "go-to" reference for health psychologists, child and adolescent mental health practitioners, pediatricians and family practitioners, and clinical social workers.

This book presents the current state of the nursing science in topics relevant to the care of pediatric oncology patients and their families across the treatment trajectory and is framed within a precision health framework. The spectrum of topics covered is wide, including, for example, symptom management, self-care management, exercise and physical activity, family-centered care, palliative care, the role of the nurse in treatment decision making, patient and nurse resiliency, survivorship, and genetic counseling. Throughout, there is a focus on the implications of research for nursing practice, highlighting which elements of the available evidence are ready for translation into practice and which are not. In addition, careful attention is paid to the role that nursing can play in further advancing science through clinical research. The authors are leading experts from across the globe. The book will be of special interest for pediatric oncology nurses, including direct care nurses, research nurses, and nursing leaders, and will also be a stimulating source for researchers and non-oncology nurses.

Bookmark File PDF Journal Of Pediatric Oncology Nursing

This textbook walks clinicians through the psychosocial issues and challenges faced by children and adolescents with cancer and their families. Through a developmental lens, the text provides guidance and resources that will enable clinicians to understand the physical and emotional impact of the disease from diagnosis onwards, to work with families in distress, and to diagnose and treat a range of behavioral, psychological, and psychiatric issues. The book also addresses the burgeoning fields of social media, complementary therapies, palliative care, and survivorship. Among the variety of useful resources supplied are assessment tools, websites, and additional reading materials. The psychosocial issues that arise for children and their families during the course of treatment are an important yet often overlooked aspect of pediatric oncology care. The reader will find that *Pediatric Psychosocial Oncology: Textbook for Multidisciplinary Care* covers these issues at the forefront of clinical care in a direct and approachable way, integrating research literature with practical clinical guidance.

"This comprehensive clinical handbook for nurses in pediatric haematology/oncology, authored by nurse experts from the United Kingdom and North America, contains in-depth information regarding pathophysiology, diagnosis, treatment, advanced assessment, and interventions. It is organized in a user-friendly format with quick reference guides for the nurse. Given the ongoing, challenging developments faced during the clinical nursing care of children with cancer, this handbook will provide an indispensable tool for those working in this speciality."--Jacket.
