This synthesis provides information for transit and transportation professionals who seek to address planning and management issues in the transit industry. This document is intended for internal management decision makers; general managers and agency board members. It might offer external stakeholders such as local governments and businesses, as well as the public, increased awareness in helping define a transit agency's role and responsibilities to the community, thus aiding the development of outside support for an agency's mission.

"TRB's Transit Cooperative Research Program (TCRP) Synthesis 108: Transit Bus Operator Distraction Policies is designed to help transit agencies develop policies and programs to address and prevent distracted driving incidents"--Publication page.

Covers hiring procedures in every major U.S. city and includes three complete practice exams with answer explanations
New York City transit workers share their stories and adventures of working in the subways and the buses
Introduction -- Planning framework -- Estimating BRT ridership -- Component features, costs, and impacts -- System packaging, integration, and assessment -- Land development guidelines.

The report provides information on the current market for low-floor buses and provides a summary of operating experiences on the basis of discussions with transit agencies and low-floor bus manufacturers. The report includes information on customer satisfaction and acceptance, bus capacity and ridership impacts, bus operating experiences, impacts on maintenance and facilities, safety experiences, and operator and mechanic acceptance and satisfaction. Also included is a discussion of the current market and market trends for low-floor buses, an update of the status of low-floor bus technology and technological developments, and a summary of key specifications for low-floor buses available to the North American transit market.

This report assesses the transit industry's workforce needs and prospects for the coming decades. Further, the report provides guidelines to enable employers to assess their own workforce needs, describes best practices for recruiting and retaining employees, and identifies ways to enhance or establish partnerships between management and labor for attracting, training, and maintaining a qualified workforce.

Information was obtained from a literature search, surveys, and 13 case studies. The report will be helpful to transit general managers, assistant general managers, directors of human resources, and other key transit officials.

while boarding, riding, and leaving the bus.

The future of disability in America will depend on how well the U.S. prepares for and manages the demographic, fiscal, and technological developments that will unfold during the next two to three decades. Building upon two prior studies from the Institute of Medicine (the 1991 Institute of Medicine's report *Disability in America* and the 1997 report *Enabling America*), *The Future of Disability in America* examines both progress and concerns about continuing barriers that limit the independence, productivity, and participation in community life of people with disabilities. This book offers a comprehensive look at a wide range of issues, including the prevalence of disability across the lifespan; disability trends the role of assistive technology; barriers posed by health care and other facilities with inaccessible buildings, equipment, and information formats; the needs of young people moving from pediatric to adult health care and of adults experiencing premature aging and secondary health problems; selected issues in health care financing (e.g., risk adjusting payments to health plans, coverage of assistive technology); and the organizing and financing of disability-related research. *The Future of Disability in America* is an assessment of both principles and scientific evidence for disability policies and services. This book's recommendations propose steps to eliminate barriers and strengthen the evidence base for future public and private actions to reduce the impact of disability on individuals, families, and society.

The *Bus Operator Selection Survey (BOSS) Passbook(R)* prepares you for your test by allowing you to take practice exams in the subjects you need to study.
