Someone plans to ruin her perfect year—even if that means killing her. Will Tania live to see the homecoming dance?

The original novel that inspired the films! First published more than fifty years ago, Pierre Boulle's chilling novel launched one of the greatest science fiction sagas in motion picture history. In the not-too-distant future, three astronauts land on what appears to be a planet just like Earth, with lush forests, a temperate climate, and breathable air. But while it appears to be a paradise, nothing is what it seems. They soon discover the terrifying truth: On this world humans are savage beasts, and apes rule as their civilized masters. In an ironic novel of nonstop action and breathless intrigue, one man struggles to unlock the secret of a terrifying civilization, all the while wondering: Will he become the savior of the human race, or the final witness to its damnation? In a shocking climax that rivals that of the original movie, Boulle delivers the answer in a masterpiece of adventure, satire, and suspense.

Lord Byron (1788-1824) was a poet and satirist, as famous in his time for his love affairs and questionable morals as he was for his poetry. Looking beyond the scandal, Byron leaves us a body of work that proved crucial to the development of English poetry and provides a fascinating counterpoint to other writings of the Romantic period. This guide to Byron's sometimes daunting, often extraordinary work offers: an accessible introduction to the contexts and many interpretations of Byron's texts, from publication to the present an introduction to key critical texts and perspectives on Byron's life and work, situated in a broader critical history cross-references between sections of the guide, in order to suggest links between texts, contexts and criticism suggestions for further reading. Part of the Routledge Guides to Literature series, this volume is essential reading for all those beginning detailed study of Byron and seeking not only a guide to his works but also a way through the wealth of contextual and critical material that surrounds them.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of

January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Professor Gail Dines has written about and researched the porn industry for over two decades. She attends industry conferences, interviews producers and performers, and speaks to hundreds of men and women each year about their experience with porn. Students and educators describe her work as “life changing.” In Pornland—the culmination of her life’s work—Dines takes an unflinching look at porn and its affect on our lives. Astonishingly, the average age of first viewing porn is now 11.5 years for boys, and with the advent of the Internet, it’s no surprise that young people are consuming more porn than ever. But, as Dines shows, today’s porn is strikingly different from yesterday’s Playboy. As porn culture has become absorbed into pop culture, a new wave of entrepreneurs are creating porn that is even more hard-core, violent, sexist, and racist. To differentiate their products in a glutted market, producers have created profitable niche products—like teen sex, torture porn, and gonzo—in order to entice a generation of desensitized users. Going from the backstreets to Wall Street, Dines traces the extensive money trail behind this multibillion-dollar industry—one that reaps more profits than the film and music industries combined. Like Big Tobacco—with its powerful lobbying groups and sophisticated business practices—porn companies don’t simply sell products. Rather they influence legislators, partner with mainstream media, and develop new technologies like streaming video for cell phones. Proving that this assembly line of content is actually limiting our sexual freedom, Dines argues that porn’s omnipresence has become a public health concern we can no longer ignore.

Till now, Stephanie has done her best to play by the rules--which seem to be stacked against girls like her. It doesn't help that she wants to play football, dress like a boy, and fight apartheid in South Africa--despite living in rural middle England--as she struggles to find her voice in a world where everything is different for girls. Then she hears them on the radio. Greenham women--an irreverent group of lesbians, punk rockers, mothers, and activists who have set up camp outside a US military base to protest nuclear war--are calling for backups in the face of imminent eviction from their muddy tents. She heads there immediately, where a series of adventures--from a break-in to a nuclear research center to a doomed love affair with a punk rock singer in a girl band--changes the course of her life forever. But the sense of community she has found is challenged when she faces tragedy at home.

Now in its ninth edition, American Constitutional Law is the only book that develops constitutional law in the comprehensive sense. Along with containing analyses and excerpts of court decisions, the book highlights the efforts of legislatures, executives, the states, and the general public to participate in an ongoing political dialogue rather than

passively receive a series of unilateral judicial commands. It covers all new developments in case law, congressional statutes, presidential policies, and initiatives undertaken by states under their own constitutions. The book includes readings not only from cases but congressional floor debates, committee reports, committee hearings, presidential vetoes and other statements, state actions, Federalist papers, and professional journals. It also includes a chapter on equal protection that addresses immigration law and the rights of aliens.

A pair of federal agents from either side of the US–Mexico border target a cartel kingpin. They call him “Cuchillo,” the Knife. Not because he kills with a blade—he has plenty of men to do that kind of work for him—but because his mind is so sharp. As Mexico's government wages war on the drug cartels, it takes brains to survive, and Cuchillo has not just survived—he has prospered. But when Cuchillo begins to cut too deeply, the federal police of both the United States and Mexico step in to dull his blade. P. Z. Evans and Alejo Díaz know the Hermosillo cartel is planning an attack on a tourist bus in Sonora, and they know they will have to capture or kill Cuchillo to stop it. The cartel leader has one weakness: rare, old books. To destroy the intellectual's evil empire, this unlikely pair of international police will have to appeal to his inner bibliophile. The Bibliomysteries are a series of short tales about deadly books, by top mystery authors.

USA TODAY BESTSELLER • Wake up and feel the wood! In the first of a series of irresistible standalone romances from Sawyer Bennett, a city girl rediscovers love and lust in the Alaskan wilderness. Valentine French may be the sassiest dating columnist in New York City, but the abundance of metrosexuals in her adopted metropolis is seriously cramping her style. Where are the beefy all-American boys? Hoping to find some inspiration, Val heads to Alaska, where the men outnumber the women fifteen to one and wrestle grizzly bears for sport. Or so she can only imagine. Suddenly the most eligible bachelorette in a town full of horny lumberjacks, Val is writing her best columns ever. But if she doesn't get her nose out of her laptop, she just might miss out on Mr. Right. Logan Burke is the sheriff of the little podunk town that Val finds so charmingly backward. He's not that different from the guys she's using for her little experiment; it's just that one date would never be enough for Logan. As he listens to Val complain about love over beers in the local tavern, he realizes that she can't see the forest for the trees. Because if she would ever give up her Prada bags and fourteen-dollar martinis, Logan would give her the only luxury that matters: his heart. A Merry Little Christmas is about Franny Martin—a woman who isn't afraid to dream big. But most of all, A Merry Little Christmas is a love story about two people who come from different worlds. Charlie is all wealth and polish while Franny is a simple farm girl who has more spirit than money. In the process of making a "trading places" arrangement between them, they unearth some discoveries of the heart—that sometimes love comes when you're least ready for it, and that love can bring the most impossible dreams within reach. Make yourself merry this holiday season with A Merry Little Christmas!

This encyclopedia presents a wealth of information on early cinema history, with coverage of the techniques and equipment of film production, profiles of the pioneering directors and producers, analysis of individual films and the rapid growth of distinct film genres, and the emergence of something the world had never seen before - the movie star. The work also focuses on how the nature of film exhibition changed as the industry grew, and how the public's reception to films also changed. The pre-cinema period is closely examined to show those mass-cultural forms and practices - such as music hall and vaudeville - from within which cinema was to emerge. A perfect companion for any student of early cinema and film studies.

This is a memoir by two-time CrossFit Games champion, Katrin Davidsdottir. Dottir is two-time consecutive CrossFit Games Champion Katrin Davidsdottir's inspiring and poignant memoir. As one of only three women in history to have won the title of “Fittest Woman on Earth” twice, Davidsdottir knows all about the importance of mental and physical strength. She won the title in 2015, backing it up with a second win in 2016, after starting CrossFit in just 2011. A gymnast as a youth, Davidsdottir wanted to try new challenges and found a love of CrossFit. But it hasn't been a smooth rise to the top. In 2014, just one year before taking home the gold, she didn't qualify for the Games. She used that loss as motivation and fuel for training harder and smarter for the 2015 Games. She pushed herself and refocused her mental game. Her hard work and perseverance paid off with her return to the Games and subsequent victories in 2015 and 2016. In Dottir, Davidsdottir shares her journey with readers. She details her focus on training, goal setting, nutrition, and mental toughness.

A biography of the century's most strange men, Parsons was a primary architect of modern rocket science and co-founder of Jet Propulsion Laboratory - a crater on the moon was named after him. His secretive interests, however, were more bizarre and involved him in underwriting the notorious Aleister Crowley whose Book of the Law he considered to be the new Holy Book. Parsons also held numerous soirees where weird black magick rituals were performed under the eyes of none other than L Ron Hubbard who then made off with his money and his wife. Stranger than fiction

It is a little known fact that reading was taught by means of spelling for over 200 years. Today the impact of spelling on reading achievement is not as well appreciated as it once was. The late Dr. Ronald P. Carver did extensive research into the causal relationships between spelling instruction and reading ability. Carver concluded, "One very important way to learn how to

pronounce more words accurately is sometimes overlooked, that is, learning to spell more words accurately." (Causes of High and Low Reading Achievement, p. 178). He also notes that "spelling was used to teach reading for almost 200 years, but by the beginning of the 20th century, the tide had so turned that learning to spell was largely seen as incidental to learning to read." Quoting C. A. Perfetti, Carver observed, "practice at spelling should help reading more than practice of reading helps spelling." (p. 179. In June of 2004 Miss Geraldine Rodgers sent me her essay, "Why Noah Webster's Way Was the Right Way." She argued from the history of reading and the psychology of reading that Webster's spelling book method of teaching reading and spelling was superior to all other methods. I was surprised to learn that that Webster, in his 1828 American Dictionary of the English Language, defined a Spelling Book as, " A book for teaching children to spell and read." He also wrote under the entry, Spelling, "To tell the name of letters of a word, with a proper division of syllables, for the purpose of learning the pronunciation. In this manner children learn to read by first spelling the words." You can see that Webster was quite clear about the dual purpose of the spelling books in his day. You can imagine my surprise at the improvement I began to get with my tutoring students when they started working through Webster's Spelling Book. I decided to type up my own edition to use in my private tutoring and my tutoring work at the Odessa Christian School in Odessa, TX, where I teach remedial reading and Spanish. In this edition, I have retained everything in the original 1908 (descendant from the 1829 edition). The only differences relate to formatting. I chose to list the words in rows instead of columns. I also allow the words to divide at the ends of lines. I have found that this works fine for all students. We are teaching students to read and spell by syllables and not by word shapes or context. When reading and spelling are taught by the Spelling Book Method, all guessing at words from shape or context is completely eliminated. The student's total focus is on pronouncing the words correctly, high levels of comprehension are a natural result.

The films that society has termed pornographic have been with us for over a century now. Yet beyond a handful of scholarly tracts and a a few glancing references in certain Hollywood histories, there is no modern history of the subject available. Featuring exclusive interviews, descriptions of over 300 films and written in a conversational style, Black and White and Blue fills that void.

Ring in the holiday season with #1 New York Times bestselling author and Lakewood Church pastor Joel Osteen and

find peace and cheer with this beautiful Christmas devotional. There's nothing like the joy that comes by sharing our love and what we have with loved ones and friends during the Christmas season. But it can also be a time of stress, worry, and disappointments for many reasons. It's easy to let our guard down and lose our peace and joy. The good news is that the true Christmas spirit is wrapped up in Jesus, the Prince of Peace. He doesn't just have peace; He is peace. He gives us peace that passes understanding. We can have peace when things around us aren't peaceful. When we stay in a position of peace, we aren't moved by what others are saying or doing or situations that aren't working out like we want. His peace inside us doesn't rise and fall with our circumstances. Let Peace for the Season bring you to the place of peace and unending hope. You'll have more passion, more contentment, and more joy than you ever imagined.

If police are the problem, what's the solution? Tens of millions of people poured onto the streets for Black Lives Matter, bringing with them a wholly new idea of public safety, common security, and the delivery of justice, communicating that vision in the fiery vernacular of riot, rebellion, and protest. *A World Without Police* transcribes these new ideas—written in slogans and chants, over occupied bridges and hastily assembled barricades—into a compelling, must-read manifesto for police abolition. Compellingly argued and lyrically charged, *A World Without Police* offers concrete strategies for confronting and breaking police power, as a first step toward building community alternatives that make the police obsolete. Surveying the post-protest landscape in Minneapolis, Philadelphia, Chicago, and Oakland, as well as the people who have experimented with policing alternatives at a mass scale in Latin America, Maher details the institutions we can count on to deliver security without the disorganizing interventions of cops: neighborhood response networks, community-based restorative justice practices, democratically organized self-defense projects, and well-resourced social services. *A World Without Police* argues that abolition is not a distant dream or an unreachable horizon but an attainable reality. In communities around the world, we are beginning to glimpse a real, lasting justice in which we keep us safe. The first collection of short stories from the Christian writer Dmitri Dobrovolski immerses the reader into the wonderful world of God's miracles! The collection includes new and previously unpublished inspiring stories along with Dmitri's popular work: "The Faithful Steward"

A wonderfully engaging and accessible book, *Who Cares?* emphasizes finding humane responses to developmentally and physically disabled individuals that are community driven rather than solely reliant on problem-solution oriented social service organizations.
