RUDIMENTAAL is a collection of rudimental snare drum pieces inspired by the tabla drumming of North India - a gateway into North Indian drumming for drummers and percussionists from all backgrounds. In addition to the pieces contained in this text, are explanations of the solo tabla form and the repertoire of which it is comprised, along with exercises and études in order to further develop one's understanding of the compositional forms, rhythmic devices, and performance practices of this rich musical tradition. The repertoire is presented in a way similar to how one might learn tabla. First, one learns various compositions from the repertoire as separate items. Each item can be seen as an étude, or a short concert piece for performance. Once enough repertoire is learned, one can then connect the various compositions together to create a fully-formed solo. There are a number of compositions provided, along with instructions for how to piece them together, allowing for numerous possible permutations in designing your own solo snare drum performance based on your repertoire preferences. In addition to these shorter compositions that can be used as building blocks for larger pieces, three complete stand alone solo pieces are also included: DANCING HANDS, CHESTERMERE & DELHI, and SEVEN BIRDS.

This diverse collection of drum charts comes with a CD of accompaniments recorded both with drums for demonstration and without drums for playing along, and includes analyses and performance suggestions. Performance settings like big band, small group, live shows, Broadway, studio work, dance jobs and cruise ships are discussed in terms of responsibilities, challenges, expectations, awareness and problem areas. 72 pages.

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this "vital, necessary, and beautiful book" (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and "allows us to understand racism as a practice not restricted to 'bad people'" (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and

prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.
