The crime-infested intersection of West Fayette and Monroe Streets is well-known--and cautiously avoided--by most of Baltimore. But this notorious corner's 24-hour open-air drug market provides the economic fuel for a dying neighborhood. David Simon, an award-winning author and crime reporter, and Edward Burns, a 20-year veteran of the urban drug war, tell the chilling story of this desolate crossroad. Through the eyes of one broken family--two drug-addicted adults and their smart, vulnerable 15-year-old son, DeAndre McCollough, Simon and Burns examine the sinister realities of inner cities across the country and unflinchingly assess why law enforcement policies, moral crusades, and the welfare system have accomplished so little. This extraordinary book is a crucial look at the price of the drug culture and the poignant scenes of hope, caring, and love that astonishingly rise in the midst of a place America has abandoned.

"Cartwright tells the story of the Chagra brothers, Lee and Joe, as they get mixed up with the drug-running community along the border and in short order find themselves hopelessly entangled in a net cast by the DEA. Even readers unfamiliar with the well-publicized events of the book or of the dark, lawless aspect that often rules El Paso will find themselves pulled along by the plot: brigands and intrigue leap from almost every page, and the story just gets wilder the further into it you venture."—from an Amazon.com review Four pages into this rollicking good story, the central figure, Lee Chagra, comes alive: "[Lee] washed his morning

cocaine down with strong coffee and remembered the time he had met Sinatra, how genuine he appeared." Everything you'll need to know and remember about Chagra—the son of Syrian immigrants to Mexico and an attorney who spun the world of dope-running, border-crossing, high-living outlaws along the El Paso–Juarez border around his finger like the gaudy rings he favored—can be neatly summarized in that one sentence. Chagra dies two pages later, yet he haunts the rest of this cautionary tale like a high-rolling specter. of victims began to come out, revealing a vast criminal enterprise operating within the Baltimore Police Department. An unprecedented behind-the-scenes look at the men who protect us from the most frightening prospect of life in the age of terrorism "In my mind it's all business; I don't worry about my family, I don't worry about a function that I'm doing after work, I just worry about what's at hand. And what's at hand is that package." -- Detective First Grade Joe Putkowski, NYPD Bomb Squad The New York City Police Department Bomb Squad is the oldest such squad in the nation, founded in 1903. Each year its thirty-three members make more than two hundred stress-filled "bomb runs," in which they check suspicious briefcases, defuse hand grenades, and even respond to "art" projects constructed with real explosives. The public rarely sees these men--and when they do, it's usually from a distance, telephoto pictures of helmeted figures in ninety-pound suits of Kevlar armor. Starting on December 31, 2003, in the heart of the New Year's Eve action in Times Square, journalists Richard Esposito and Ted Gerstein had exclusive access to the nation's most elite police unit for an entire year. Their often chilling, never-before-told tales from the front line provide an extraordinary view of the domestic war on

native of the region he writes about so he brings to the novel a feeling for the period, the climate, and the humanity. Within the seven days in which the novel takes place John Lee is confronted by the surprising news that the woman he loved as a teenager is now married to a violent, fundamentalist deputy sheriff. He is also surprised to learn that he is heir to Blind Tom's forty acre farm on the outskirts of the village. His struggle to readapt himself to the community after years away in college and work as a journalist in Baltimore, Maryland, is made even more challenging by a series of revelations about his own Native American heritage, the peeling away of the superficiality hiding violence and hatred in the community, and the continuing mystical reappearance of Blind Tom. The oppressive heat, the news that Blind Tom was killed by a hit and run driver, his mother's strong and resilient presence in the midst of a community on the edge of disintegration, and the anchoring presence of Blind Tom's spirit creates an atmosphere that is filled with humor, tension, passion, violence and murder. Anchoring much of the story are four old men, storytellers who recite the history and reality of the community with humor and the wisdom of ancient priests. They also involve themselves in the action of the story resulting in humor and arrest. The surprising turn of events as the week passes creates tension and laughter in the reader with an unexpected twist that culminates in a bloody and revelatory

were often more vicious than the criminals they chased. Agent Dean Unkefer was a naive kid with notions of justice and fair play when he joined up. As he spirals into the hell of addiction and watches his life become a complex balancing act of lies and half-truths, he begins to wonder what side he is really on. 90 Church is both the memoir of one man's confrontation with the dark corners of the human experience and a fascinating window into a little-known time in American history. Dirty War is the first comprehensive look at the Rhodesia's top secret use of chemical and biological weapons (CBW) during their long counterinsurgency against native African nationalists. nationalists. In the midst of this long and terrible conflict, Rhodesia resorted to chemical and biological weapons against an elusive guerrilla adversary. A small team made up of a few scientists and their students at a remote Rhodesian fort to produce lethal agents for use. Cloaked in the strictest secrecy, these efforts were overseen by a battle-hardened and ruthless officer of Rhodesia's Special Branch and his select team of policemen. Answerable only to the head of Rhodesian intelligence and the Prime Minister, these men working alongside Rhodesia's elite counter guerrilla military unit, the Selous Scouts, developed the ingenious means to deploy their poisons against the insurgents. The effect of the poisons and disease agents devastated the insurgent groups both inside Rhodesia and at their base camps in neighboring countries. At times in the conflict, the Rhodesians thought that their poisons effort would bring the decisive blow against the guerrillas. For months at a time, the Rhodesian use of CBW accounted for higher casualty rates than conventional weapons. In the end, however, neither CBW use nor conventional battlefield successes could turn the tide. Lacking international political or economic support, Rhodesia's fate from the outset was doomed. Eventually the conflict was settled by the ballot box and Rhodesia became independent Zimbabwe in April 1980. Dirty War is the culmination of nearly two decades of painstaking research and interviews of

dozens of former Rhodesian officers who either participated or were knowledgeable about the top secret development and use of CBW. The book also draws on the handful of remaining classified Rhodesian documents that tell the story of the CBW program. Dirty War combines all of the available evidence to provide a compelling account of how a small group of men prepared and used CBW to devastating effect against a largely unprepared and unwitting enemy. Looking at the use of CBW in the context of the Rhodesian conflict, Dirty War provides unique insights into the motivation behind CBW development and use by states, especially by states combating internal insurgencies. As the norms against CBW use have seemingly eroded with CW use evident in Iraq and most recently in Syria, the lessons of the Rhodesian experience are all the more valid and timely.

This book argues that traditional images and practices associated with shame did not recede with the coming of modern Britain. Following the authors' acclaimed and successful nineteenth century book, *Cultures of Shame*, this new monograph moves forward to look at shame in the modern era. As such, it investigates how social and cultural expectations in both war and peace, changing attitudes to sexual identities and sexual behaviour, new innovations in media and changing representations of reputation, all became sites for shame's reconstruction, making it thoroughly modern and in tune with twentieth century Britain's expectations. Using a suite of detailed micro-histories, the book examines a wide expanse of twentieth century sites of shame including conceptions of cowardice/conscientious objection during the First World War, fraud and clerical scandal in the interwar years, the shame associated with both abortion and sexual behaviour redefined in different ways as 'deviant', shoplifting in the 1980s and lastly, how homosexuality shifted from 'Coming Out' to embracing 'Pride', finally rediscovering the positivity of shame with the birth of the 'Queer'. If nobody's playing by the rules, play dirty in this explosive New York Times bestseller by Sandra Brown, author of *Smoke Screen*.

memoirs of an ol' teacher but the author deals with how the events of the past may be connected to our current life. Beside the Alaska adventures there are some significant points made throughout the book: - There is a word for word interview with OSAMA bin LADEN as repeated from this author's contact with Peter Bergen of CNN, the only western journalist ever to personally talk with the jihadist in his cave back in 1997. This clearly explains the nature of our current conflict. - Rosa Parks not going to the back of the bus affected America. - Passengers of flight 93 had the foresight to sacrifice themselves for preservation of their fellow Americans in Washington DC, targeted by the hijackers of that flight. - The Sec. of State stood against a belligerent congress in 1867 to purchase Alaska from Russia proving the "collective wisdom" of our congress is often totally wrong. - JFK challenged us to do the impossible (go to the moon). This success gave us confidence to attempt other "impossibles." - Our total dependence on modern technical devices may be a big gain . But let us evaluate what we have lost in doing so. - There are productive ways for us all to deal with the national tragedy of Sept 11th 2001.
