

The International Research Journals Irj

The job interview is probably the most important step you will take in your job search journey. Because it's always important to be prepared to respond effectively to the questions that employers typically ask at a job interview Petrogav International has prepared this eBooks that will help you to get a job in oil and gas industry. Since these questions are so common, hiring managers will expect you to be able to answer them smoothly and without hesitation. This eBook contains 150 questions and answers for job interview and as a BONUS web addresses to 230 video movies for a better understanding of the technological process. This course covers aspects like HSE, Process, Mechanical, Electrical and Instrumentation & Control that will enable you to apply for any position in the Oil and Gas Industry.

Known worldwide, chronic kidney disease (CKD) is a disease that affects up to 4% of the population with increasing figures also in the developing countries. Life expectancy of patients affected by CKD is shortened compared to the overall population, and only a minority of patients reach end-stage renal disease (ESRD) with the need for dialysis or renal transplantation; death overtakes dialysis. In the 13 chapters, this book sheds light on the different aspects related to pathophysiology and clinical aspects of CKD, providing interesting insights into not only inflammation and cardiovascular risk but also the interplay of hormones and the functional aspects of endothelial function. In addition, chapters dealing with genetic aspects of polycystic kidney disease and also the clinical handling of patients with CKD and peritoneal dialysis will be beneficial for the open-minded reader.

The job interview is probably the most important step you will take in your job search journey. Because it's always important to be prepared to respond effectively to the questions that employers typically ask at a job interview Petrogav International has prepared this eBooks that will help you to get a job in oil and gas industry. Since these questions are so common, hiring managers will expect you to be able to answer them smoothly and without hesitation. This eBook contains 150 questions and answers for job interview and as a BONUS 230 links to video movies. This course covers aspects like HSE, Process, Mechanical, Electrical and Instrumentation & Control that will enable you to apply for any position in the Oil and Gas Industry.

Petrogav International provides courses for participants that intend to work on onshore oil and gas fields. Training courses are taught by professionals from the oil and gas industry with current knowledge and more than 25 years of field experience. The participants will get all the necessary competencies to work on the onshore oil and gas fields. It is intended also for non-drilling and non-production personnel who work in drilling, exploration and production industry. This includes marine and logistics personnel, accounting, administrative and support staff, environmental professionals, etc. This course provides a non-

technical overview of the phases, operations and terminology used on onshore oil and gas fields. It is intended also for non-production personnel who work in the onshore drilling, exploration and production industry. This includes marine and logistics personnel, accounting, administrative and support staff, environmental professionals, etc. No prior experience or knowledge of drilling operations is required. This course will provide participants a better understanding of the issues faced in all aspects of oil and gas field operations, with a particular focus on the unique aspects of onshore production operations. Petrogav International provides courses for participants that intend to work on offshore drilling and production platforms. Training courses are taught by professionals from the oil and gas industry with current knowledge and years of field experience. The participants will get all the necessary competencies to work on the offshore drilling platforms and on the offshore production platforms. It is intended also for non-drilling and non-production personnel who work in drilling, exploration and production industry. This includes marine and logistics personnel, accounting, administrative and support staff, environmental professionals, etc. This course provides a non-technical overview of the phases, operations and terminology used on offshore oil and gas platforms. It is intended also for non-production personnel who work in the offshore drilling, exploration and production industry. This includes marine and logistics personnel, accounting, administrative and support staff, environmental professionals, etc. No prior experience or knowledge of drilling operations is required. This course will provide participants a better understanding of the issues faced in all aspects of production operations, with a particular focus on the unique aspects of offshore operations.

The job interview is probably the most important step you will take in your job search journey. Because it's always important to be prepared to respond effectively to the questions that employers typically ask at a job interview Petrogav International has prepared this eBooks that will help you to get a job in oil and gas industry. Since these questions are so common, hiring managers will expect you to be able to answer them smoothly and without hesitation. This eBook contains 200 questions and answers for job interview and as a BONUS web addresses to 230 video movies for a better understanding of the technological process. This course covers aspects like HSE, Process, Mechanical, Electrical and Instrumentation & Control that will enable you to apply for any position in the Oil and Gas Industry.

The job interview is probably the most important step you will take in your job search journey. Because it's always important to be prepared to respond effectively to the questions that employers typically ask at a job interview Petrogav International has prepared this eBooks that will help you to get a job in oil and gas industry. Since these questions are so common, hiring managers will expect you to be able to answer them smoothly and without hesitation. This eBook contains 281 questions and answers for job interview and as a BONUS web addresses to 289 video movies for a better understanding of the

technological process. This course covers aspects like HSE, Process, Mechanical, Electrical and Instrumentation & Control that will enable you to apply for any position in the Oil and Gas Industry.

This expanded second edition of a classic career guide offers fascinating insight into the publishing environment for the management discipline, drawing on a wealth of knowledge and experiences from leading scholars and top-level journal editors. Responding to the continuing emphasis on publishing in the top journals, this revised, updated and extended guide offers invaluable tips and advice for anyone looking to publish their work in these publications.

This book deals with a very common condition, anemia, which might interest not only the physicians but also other healthcare professionals and researchers dealing with anemic patients. The objective of this book was to collect and compile up-to-date information from reputable researchers of different countries of the world to disseminate the latest information about the common types of anemia in some specific physiological and pathological conditions including pathophysiology and the use of algorithms as a tool to minimize the laboratory tests and accurate diagnosis of the underlying cause. In total, there are 13 chapters in this book where the authors shared their research findings and real-life experiences in managing their patients with anemia.

The job interview is probably the most important step you will take in your job search journey. Because it's always important to be prepared to respond effectively to the questions that employers typically ask at a job interview Petrogav International has prepared this eBooks that will help you to get a job in oil and gas industry. Since these questions are so common, hiring managers will expect you to be able to answer them smoothly and without hesitation. This eBook contains 273 questions and answers for job interview and as a BONUS 230 links to video movies. This course covers aspects like HSE, Process, Mechanical, Electrical and Instrumentation & Control that will enable you to apply for any position in the Oil and Gas Industry.

This book addresses the past and changing contexts of Chinese and German teacher education under the impact of globalization and echoes "quality" issues of teacher education. This edited book provides a comprehensive discussion on other issues in the management and implementation of change in teacher education related to teacher education curricula for professional development of teachers. A combination of chapters provides an overview, a review of literature and research as well as offering examples of teacher education practice and updated empirical research on these topics co-edited by two senior scholars and written by experts from Mainland China (including Hong Kong) and Germany. The volume addresses key issues on teacher standards, ICT in education and e-learning in teacher education, STEM education, vocational teacher education, university-school partnership in teacher education and teaching Chinese or German as a second language. This is an up-to-date academic book to look at profound issues related to quality in teacher education and teachers' professional development in mainland China and Germany. It will be a useful reference for graduate students and researchers in the field of international and comparative education, teacher education and curriculum studies, teacher educators and practitioners to learn from trends, best practice and challenges that have been encountered in Mainland China and Germany. Zakat, a religious obligation in the form of almsgiving, is highly important both in Islam and in the Islamic economy. As Muslim communities face financial hardships around the world, Zakat has emerged as a vital component within these communities and could play a major role in sustainable economic development by helping society to alleviate poverty and promote social equality. Impact of Zakat on Sustainable Economic Development is a pivotal reference source

that contributes practical solutions and knowledge production in alleviating poverty in Muslim countries by adopting Islamic approaches to contemporary socio-economics and the importance of Zakat in sustaining development and supporting the welfare of society. Featuring coverage on a wide range of topics such as corporate governance, ethics, and sustainable economic development, this book is ideally designed for economists, government officials, regulators, entrepreneurs, financial professionals, religious authorities, researchers, academicians, and students at the postgraduate level.

The job interview is probably the most important step you will take in your job search journey. Because it's always important to be prepared to respond effectively to the questions that employers typically ask at a job interview Petrogav International has prepared this eBooks that will help you to get a job in oil and gas industry. Since these questions are so common, hiring managers will expect you to be able to answer them smoothly and without hesitation. This eBook contains 100 questions and answers for job interview and as a BONUS web addresses to 220 video movies for a better understanding of the technological process. This course covers aspects like HSE, Process, Mechanical, Electrical and Instrumentation & Control that will enable you to apply for any position in the Oil and Gas Industry.

Evaluating the role of logistics and supply chain management skills or applications is necessary for the success of any organization or business. As market competition becomes more aggressive, it is crucial to evaluate ways in which a business can maintain a strategic edge over competitors. Contemporary Approaches and Strategies for Applied Logistics is a critical scholarly resource that examines applied research and development in logistics and supply chain management. Featuring coverage on a broad range of topics, such as computational logistics, inventory management, and partnership formation, this book is geared towards academicians, researchers, and practitioners seeking current research on enabling an efficient and sustainable economy.

This edited work attempts to 'make sense' of recent developments in the field of Human Resource Management in the People's Republic of China. It attempts to see how the paradoxes and contradictions engendered by contemporary Chinese society are being resolved in the enterprises and workplaces of the Middle Kingdom. The book starts with an overview of the literature, then follows with a selection of micro-oriented, concerned with topics like recruitment and retention, then macro-oriented empirical studies, a number of the latter dealing with strategic as well as performance issues, with last, those comparing sets of societal cultural values. It attempts a synthesis of what has emerged from recent research on the 'harmonious society'. These contributions from authors based in universities in eight countries, in Australia, Canada, China, Hong Kong, Japan, Taiwan, United Kingdom and USA, cover a wide range of research on HRM, from the micro- to the macro-. Six of them teach and/or research at campuses on the Mainland. Their empirical, field-based research covers the last half-decade and presents a robust picture of both what practitioners have adopted and how researchers have tried to 'make sense' of what they have investigated. This book was based on a special issue of Intl Journal of Human Resource Management.

International Transaction Journal of Engineering, Management, & Applied Sciences & Technologies publishes a wide spectrum of research and technical articles as well as reviews, experiments, experiences, modelings, simulations, designs, and innovations from engineering, sciences, life sciences, and related disciplines as well as interdisciplinary/cross-disciplinary/multidisciplinary subjects. Original work is required. Article submitted must not be under consideration of other publishers for publications.

The ever-increasing awareness and growing focus on environmental issues such as climate change and energy use is bringing about an urgency in expanding research to provide possible solutions to these problems. Through current engineering research and emerging technologies, scientists work to combat modern environmental and

ecological problems plaguing the globe. *Advanced Methodologies and Technologies in Engineering and Environmental Science* provides emerging research on the current and forthcoming trends in engineering and environmental sciences to resolve several issues plaguing researchers such as fossil fuel emission and climate change. While highlighting these challenges, including chemical toxicity environmental responsibility, readers will learn how engineering applications can be used across disciplines to aid in reducing environmental hazards. This book is a vital resource for engineers, researchers, professors, academicians, and environmental scientists seeking current research on how engineering tools and technologies can be applied to environmental issues.

Breaking new ground and drawing on contributions from the leading academics in the field, this notable volume focuses specifically on industrial relations. Informative and revealing, the text provides an overview of the industrial relations systems of nine regions (North America, South America, Western Europe, Eastern Europe, the Middle East, Australia and New Zealand, Asia, Africa, and India) and is divided into two distinct sections covering: regional variations in global industrial relations systems contemporary themes in global industrial relations. Combining both systems and thematic issues, this important new text is invaluable reading for postgraduates and professionals in the fields of human resources management, industrial relations and business and management as well as anyone studying or interested in the issues surrounding global industrial relations.

Islamic Finance: Instruments and Markets looks at the application of Sharia law to the world of banking and finance. It provides you with an understanding of the rationale behind the instruments and the rapidly developing Islamic financial markets. Coverage includes in-depth analysis of the financial instruments within the Sharia framework and how they are applied in various sectors including insurance, investment and capital markets. Regulatory issues are also discussed both from the role of the Sharia board to reporting financial risk to legal bodies. It addresses issues such as bringing a New Ethical Dimension to Banking through to The International Role of Islamic Finance and provides you with a range of checklists from Business Ethics in Islamic Finance to The Role of the Shariah Advisory Board in Islamic Finance and Regulatory and Capital Issues under Shariah Law.

Energy security has become a central concern for all the countries in the Asian region and the search for sufficient sources of energy to fuel economic growth has drastically influenced relations among the South Asian countries as well as their respective relations with their neighbours China, Myanmar, Iran, and Afghanistan. The recent nuclear deal between India and the US is also indicative of how energy and power politics are linked and how these new inter-linkages underlie relations between...

The job interview is probably the most important step you will take in your job search journey. Because it's always important to be prepared to respond effectively to the questions that employers typically ask at a job interview Petrogav International has prepared this eBooks that will help you to get a job in oil and gas industry. Since these questions are so common, hiring managers will expect you to be able to answer them smoothly and without hesitation. This eBook contains 100 questions and answers for job interview and as a BONUS web addresses to 230 video movies for a better understanding of the technological process. This course covers aspects like HSE,

Process, Mechanical, Electrical and Instrumentation & Control that will enable you to apply for any position in the Oil and Gas Industry.

This book offers you a brief, but very involved look into the operations in the drilling of an oil & gas wells that will help you to be prepared for job interview at oil & gas companies. From start to finish, you'll see a general prognosis of the drilling process. If you are new to the oil & gas industry, you'll enjoy having a leg up with the knowledge of these processes. If you are a seasoned oil & gas person, you'll enjoy reading what you may or may not know in these pages. This course provides a non-technical overview of the phases, operations and terminology used on offshore drilling platforms. It is intended also for non-drilling personnel who work in the offshore drilling, exploration and production industry. This includes marine and logistics personnel, accounting, administrative and support staff, environmental professionals, etc. No prior experience or knowledge of drilling operations is required. This course will provide participants a better understanding of the issues faced in all aspects of drilling operations, with a particular focus on the unique aspects of offshore operations.

This book outlines the findings and suggestions of the Law and Society Association's International Research Collaborations, which focused on the African Union's Agenda 2063. This outlined the ideal Africa aspired to by the year 2063: 'the Africa we want'. The authors examine socio-economic rights issues and their impact on developing a strong educational agenda that can drive Africa to realize Agenda 2063. As Africa's development has remained slow in the face of many challenges, the need to embrace good governance, rule of law and human rights obligations are major tools to realize the continent's potential. The project focuses in particular on the central place of education law and policy in achieving the goals of Agenda 2063.

"This book investigates the impact of diverse cultures on the development and actualization of global economic entities, exploring advanced methods and best practices for the effective utilization and management of financial organizations within a globalized political context"--Provided by publisher.

Over the past few decades, alliance and networks have been generally examined individually. This Handbook sheds new light on this research by combining the two topics and focuses on highlighting their similarities. The expert contributors discuss topic

Contemporary Problems of Architecture and Construction 2020 includes contributions on various complex issues and aspects of engineering and construction of buildings and structures, protection, reconstruction and restoration of architecture, as well as intellectualization of energy and safety systems functioning urban development. The contributions were presented at the eponymous conference (ICCPAC 2020, St Petersburg, Russia, November 25-26, 2020), and cover a wide range of topics: Urban development: problems of urban construction and architecture Engineering, construction and operation of buildings and structures Implementation of building information modeling (BIM) and geo-information systems (GIS) technologies in the construction industry Energy efficiency of buildings and maintenance systems Engineering technologies of sustainable nature management and environmental protection Intellectualization and algorithmization of large cities road safety systems functioning Economics and management in construction and public utility services. Contemporary Problems of Architecture and Construction 2020 will be of interest to academics and professionals involved in the urban development, engineering technologies, architecture and construction, economics and management in construction industry.

The job interview is probably the most important step you will take in your job search journey.

Because it's always important to be prepared to respond effectively to the questions that employers typically ask at a job interview Petrogav International has prepared this eBooks that will help you to get a job in oil and gas industry. Since these questions are so common, hiring managers will expect you to be able to answer them smoothly and without hesitation. This eBook contains 287 questions and answers for job interview and as a BONUS web addresses to 289 video movies for a better understanding of the technological process. This course covers aspects like HSE, Process, Mechanical, Electrical and Instrumentation & Control that will enable you to apply for any position in the Oil and Gas Industry.

The book contains 256 questions and answers for job interview for hiring on onshore drilling rigs.

The job interview is probably the most important step you will take in your job search journey. Because it's always important to be prepared to respond effectively to the questions that employers typically ask at a job interview Petrogav International has prepared this eBooks that will help you to get a job in oil and gas industry. Since these questions are so common, hiring managers will expect you to be able to answer them smoothly and without hesitation. This eBook contains 289 questions and answers for job interview and as a BONUS web addresses to 289 video movies for a better understanding of the technological process. This course covers aspects like HSE, Process, Mechanical, Electrical and Instrumentation & Control that will enable you to apply for any position in the Oil and Gas Industry.

Many international and national charters and declarations have sought to define and protect the rights of children and ensure their safety. Although many African countries subscribe to these international conventions and charters, rights violations against children have not diminished, and negative actions against children are still carried out daily. Though the media have been charged with the responsibility of active involvement in protecting the interest of the child, it is important to examine how well they have fared in the performance of this duty and the challenges that occur in the process, as well as identify future pathways to ensure that the media succeeds in this assignment. *Media and Its Role in Protecting the Rights of Children in Africa* is an essential research publication that examines media roles, challenges, theories, and strategies to ensuring the realization of the rights of children. Featuring a range of topics such as cyber-ethics, media studies, and sustainable development, this book is essential for reporters, journalists, newscasters, broadcasters, communication specialists, government officials, activists, humanitarians, sociologists, psychologists, social workers, professionals, researchers, non-governmental organizations, policymakers, academicians, and students. This book constitutes the full research papers and short monographs developed on the base of the refereed proceedings of the International Conference: Information and Communication Technologies for Research and Industry (ICIT 2020). The book brings accepted research papers which present mathematical modelling, innovative approaches and methods of solving problems in the sphere of control engineering and decision making for the various fields of studies: industry and research, energy efficiency and sustainability, ontology-based data simulation, theory and use of digital signal processing, cognitive systems, robotics, cybernetics, automation control theory, image and sound processing, image recognition, technologies, and computer vision. The book contains also several analytical reviews on using smart city technologies in Russia. The central audience of the book are researchers, industrial practitioners and students from the following areas: Adaptive Systems, Human–Robot Interaction, Artificial Intelligence, Smart City and Internet of Things, Information Systems, Mathematical Modelling, and the Information Sciences.

Worldwide energy and food crises are spotlighting the importance of bio-based products – an area many are calling on for solutions to these shortages. *Biocatalysis and Agricultural Biotechnology* encapsulates the cutting-edge advances in the field with contributions from more than 50 international experts comprising sectors of academia, industry, and government

research institutes, a virtual Who's Who among biocatalysis scientists. Created Under the Editorial Guidance of Leading Biotechnology Experts With the aid of numerous graphs and illustrations, this authoritative reference documents such important advances as: Cloning and characterization of Kennedy pathway acyltransferases Engineering of plants for industrial uses New approaches from acquired tolerance to the biotic and abiotic stress of economically important crops This comprehensive text also explores a variety of bio-based industrial products, including: The modification of enzyme character through gene manipulation The biocatalytic synthesis of chiral intermediates for drug development The use of Omega-3 phospholipid nano capsules as effective forms for transporting immune response modifiers Providing in-depth reviews of this ancient field and its modern-day advances, Biocatalysis and Agricultural Biotechnology is an invaluable lab reference for teachers, graduate students, and industrial scientists conducting research in the biosciences.

This book presents a collection of the latest studies on and applications for the sustainable development of urban energy systems. Based on the 20th International Scientific Conference on Energy Management of Municipal Facilities and Sustainable Energy Technologies, held in Voronezh and Samara, Russia from 10 to 13 December 2018, it addresses a range of aspects including energy modelling, materials and applications in buildings; heating, ventilation and air conditioning systems; renewable energy technologies (photovoltaic, biomass, and wind energy); electrical energy storage; energy management; and life cycle assessment in urban systems and transportation. The book is intended for a broad readership: from policymakers tasked with evaluating and promoting key enabling technologies, efficiency policies and sustainable energy practices, to researchers and engineers involved in the design and analysis of complex systems.

The job interview is probably the most important step you will take in your job search journey. Because it's always important to be prepared to respond effectively to the questions that employers typically ask at a job interview Petrogav International has prepared this eBooks that will help you to get a job in oil and gas industry. Since these questions are so common, hiring managers will expect you to be able to answer them smoothly and without hesitation. This eBook contains 273 questions and answers for job interview and as a BONUS web addresses to 230 video movies for a better understanding of the technological process. This course covers aspects like HSE, Process, Mechanical, Electrical and Instrumentation & Control that will enable you to apply for any position in the Oil and Gas Industry.

The objective of this Genetic Polymorphisms book is to rehighlight and provide few updates on the role of genetic polymorphisms in medicine and agriculture, which void emerging opinion on "full death" of genetic polymorphisms as useful genetic markers. Chapters presented here demonstrate the future benefit of SNPs in many genetic studies as well as prognosis disease and diagnosis.
