When President Donald Trump visited Beijing, he showed a video of his granddaughter Arabella Kushner speaking Mandarin to the Chinese leader. The two-minute clip went viral on the internet, and Arabella became a minor celebrity among Chinese viewers. Like Ms. Kushner, more and more people are learning Chinese as China re-emerges as a great power with global influence. Yet for the majority of westerners, China remains a very foreign country, and the Chinese a perplexing people. Seen from a historical vantage point, China is a very unique nation. It has been said that American history is divided into decades, European history into centuries, and Chinese history into millennia. For the last 3,000 years, China is the only country in the world that has kept unbroken historical records. People and events of the distant past fill the memories of the Chinese people. It was they who created Chinese civilization and culture, and the people living in China today. Isolated from the rest of the world, millions of square miles of land within great natural barriers gave rise to a unique civilization. To the east and south is the endless Pacific Ocean. In the north, steppes and deserts stretch into the frozen Siberian tundra. In the west lies the plateau of Tibet and the massive peaks of the Himalaya mountains. Two great rivers, the Yellow River and Yangtze Jiang, flow ceaselessly from west to east. The people living there called their nation the Central Country—China. History is abstract, but its characters were real, living people. Each civilization is rooted in its history. The history remembered by its people guides its journey into the future. To understand

the Chinese, we must understand Chinese culture. To understand Chinese culture, we must understand Chinese history. Presented in three volumes are stories of characters who shaped the history of the Chinese from past to present. By knowing them, you will begin to understand today's China.

Ancient Israel is widely regarded as having been set apart from the nations, representing a unique sociopolitical entity in the ancient world. United by a common tribal identity and a commitment to worshipping the God who delivered them from Egypt exclusively, the Israelites established an egalitarian community that stood in contrast to the hierarchical polities of their polytheistic. In spite of these traditions, modern scholarship for the most part has recognized the points of continuity between Canaanite religion and Israelite religion and concluded that the two religious systems largely developed from the same cultural milieu. However, scholars continue to contend that the Canaanites' and Israelites' social and political structures were distinct. Most scholars agree that the Israelites were geographical, economic, and/or political outsiders. The Land before the Kingdom of Israel responds to this modern perspective by contributing an original reconstruction of the sociopolitical landscape of the Late Bronze Age Levant that exposes points of continuity between the polities and populations that inhabited the land and those that were later identified with Israel. By examining multiple sources, Brendon Benz isolates and accounts for complex social and political realities that have gone unnoticed. In so doing, he sets the stage for viewing premonarchic Israel and the Bible's depiction of it in a new way. In addition to shedding light on historical memories embedded in the books of Judges and Samuel that do not conform to conventional wisdom regarding Israel's early history, Benz demonstrates that a contingent of the early Israelites was heir to the social and

political structures of their Late Bronze Age Levantine predecessors.

Andrew Abernethy employs the concept of 'kingdom' as an entry point for organizing Isaiah's major themes. Four features frame his study: God, the King; the lead agents of the King; the realm of the kingdom; the people of the King.

No. 3 in the 2002 Academy of Parish Clergy Top Ten Books of the Year! Cities--the anvil of civilization, the center of power, the metaphor for society itself--have been with us for thousands of years. Here converge piety and trade, security and politics. Yet just two hundred years ago only 3 percent of the world's population lived in cities. Today half does. Despite this tremendous explosion of urban growth, the work of the church has generally lagged behind. The city presents serious challenges that cry out for answers: poverty, racism, human exploitation and government corruption. How can the church move ahead in the midst of these

demands with the gospel of hope? Here, in one comprehensive volume, Harvie Conn and Manuel Ortiz, two noted scholars and proven practitioners of urban ministry, address the vital work of the church in the city. Their dual goal: to understand the city and God's work in it. Through four great waves of development, Conn and Ortiz trace the history of the city around the world. Then they tackle the critical issue of a biblical basis for urban mission. How does the Bible view the city? Are we closer to God in the country than the city? Does the Bible have an anti-urban bias? These questions are given a thorough analysis that unveils God's urban mandate as reflected in both Old and New Testaments. From this foundation the authors unpack the multifaceted nature of the city as place, as process, as center, as power, and as a place of change and stability. They move us beyond fragmented stereotypes to a new way of seeing that is holistic enough for a fully biblical ministry to develop. In addition, Conn and Ortiz lay out what the social sciences have to offer urban mission, including ethnographic and demographic studies. While showing how such studies have identified unreached cities and unreached groups within cities, they do not become captive to research but demonstrate how to keep kingdom priorities in view. Finally, *Urban Ministry* focuses on the essential element of leadership. While there are many books on the topic, little has been said about the particular issues and needs of urban leadership. Therefore, the authors give significant attention to developing and mentoring leaders while equipping the laity for ministry in the city. This is the essential text for bringing God's kingdom to the city through the people of God.

This study is an overview of the life and ministry of Jesus, including the Sermon on the Mount and His teachings on the kingdom of God. [X] Sessions.

lush travelogue, a parable of sports and philosophy—John Updike called this unique novel “a golf classic if any exists in our day.” Since its first publication, *Golf in the Kingdom* has been recognized as a classic work on the deeper mysteries of golf—a gospel of those who suspect, or know, that golf is more than a mere pastime. A young man en route to India stops in Scotland to play at the legendary Burningbush golf club and in twenty-four hours, his life is transformed. Paired with a mysterious teacher named Shivas Irons, he is led through a round of phenomenal golf, swept into a world where extraordinary powers are unleashed in a a backswing governed by true gravity. A night of adventure and revelation follow, and lead to a glimpse of Seamus MacDuff, the holy man who haunts a ravine off Burningbush's thirteenth fairway—one they call Lucifer's Rug. Murphy's account reveals the possibilities for transcendence that resides in the human soul, and through mystic-philosopher Shivas Irons, the reader, like Murphy, becomes drawn into new worlds by this ancient and haunting game. An 1857 two-volume study of Siam, providing valuable insight into the diplomatic workings of its court in the mid-nineteenth century.

This book offers a comprehensive biblical and theological survey of the people of God in the Old and New Testaments, offering insights for today's transformed and ethnically diverse church. Jarvis Williams explains that God's people have always been intended to be a diverse community. From Genesis to Revelation, God has intended to restore humanity's vertical relationship with God, humanity's horizontal relationship with one another, and the entire creation through Jesus. Through Jesus, both Jew and gentile are reconciled to God and together make up a transformed people. Williams then applies his biblical and theological analysis to selected aspects of the current conversation about race, racism, and related issues,

explaining what it means to be the church in today's multiethnic context. He argues that the church should demonstrate redemptive kingdom diversity, for it has been transformed into a new community that is filled with many diverse ethnic communities.

In this book Harvie M. Conn and Manuel Ortiz address the vital work of the urban church as they trace the history of the city around the world, examine the biblical basis for urban mission, unpack the multifaceted identity of the city and discuss particular issues and needs of urban leadership.

This book explores how Christian identity motivated early twentieth century Chinese business Christians toward economic, social and religious contributions in China and beyond. Parallels are also revealed today, particularly through the influence of Pentecostal, charismatic and evangelical training.

We do not have to travel to some foreign country to locate the mission field. Right here, literally in our backyards, the world has come to us. The church's basic mission is to preach the gospel of the kingdom of God; this message has social and political aspects to its application. This is the fundamental responsibility of the church. This message is holistic and affects the total person. As the church develops a comprehensive and practical understanding of missions, this will propel Christians to act out their missional call. The challenge as to how to be truly missional requires those people considered to be disciples to engage their communities in their everyday lives. To capture the full essence of missions, this book introduces a process called strategic evangelism. This process serves to raise awareness by helping to clarify the nature of the structures and practices of the church relating to its missional focus, to develop a better awareness of local missions, and to introduce a process that will assist people to live out the mission by engaging their communities.
