

The Mayan Calendar And The Transformation Of Consciousness

The Mayan Messages are a collection of 260 channeled messages, one for each day of the sacred Tzolkin Mayan calendar. In today's world, there is much debate over what may or may not happen in the year 2012. The Day Keepers of the Mayan calendar speak from the "Other Side," encouraging the reader to look within, on a daily basis, for ways to create the reality one chooses to experience. No matter when the world comes to an end, these pearls of wisdom will allow you to create a life filled with peace, joy and abundance. . . NOW and in every moment, no matter what chaos is spinning around you. Consider purchasing a copy for your local church, school, jail or public library. Contact the author for possible discounts on multiple book orders! A portion of the sale of this book is used to supply the Mayan Messages to jails and public libraries throughout the United States. For more information, visit our website at: www.t-a-d-a.com

There has been much discussion on the airwaves and online about the possible significance of 21st December 2012, the date of completion of a particular 395-year cycle in the Maya Long Count calendar. The authors of this book approach the question from a new angle, drawing on wisdom from the Book of Revelation and Rudolf Steiner's remarks on the coming incarnation of Ahriman (the Antichrist).

Looks at the culture of the Maya and the theories surrounding the end of their calendar in 2012.

Take a look at the science behind the Mayan calendar, prophecies and mythology. The Maya believed multiple cycles governed civilization. They created various calendars to track these cycles. Their short count calendar tracked a 256-year cycle believed to control epidemics, famines, warfare and more. Scientists have found a 250-year solar cycle that also appears to affect epidemics, famines, warfare and more. Their long count calendar tracked a 5000-year cycle related to natural disasters and cosmic catastrophes. Scientists have also discovered that the Earth is subjected to periodic bombardment by comets and asteroids that plunges the world into long periods of darkness and cold. Mayan mythology appears to record such events and in some instances even the exact dates on which these catastrophes occurred in the past. By comparing these dates with ice core records, sedimentary records, and climate records, this book reveals the truth about civilization's darkest days. And what may lie ahead in the future.

Did the Maya really predict that the world would end in December of 2012? If not, how and why has 2012 millenarianism gained such popular appeal? In this deeply knowledgeable book, two leading historians of the Maya answer these questions in a succinct, readable, and accessible style. Matthew Restall and Amara Solari introduce, explain, and ultimately demystify the 2012 phenomenon.

Download File PDF The Mayan Calendar And The Transformation Of Consciousness

They begin by briefly examining the evidence for the prediction of the world's end in ancient Maya texts and images, analyzing precisely what Maya priests did and did not prophesize. The authors then convincingly show how 2012 millenarianism has roots far in time and place from Maya cultural traditions, but in those of medieval and Early Modern Western Europe. Revelatory any myth-busting, while remaining firmly grounded in historical fact, this fascinating book will be essential reading as the countdown to December 21, 2012, begins.

These four discourses in 2012 are just that, formal conversations. They are related to the Mayan Calendar's end of a very important time group. There have been many books, websites, and organizations formed around the Mayan Calendar and the Mayans themselves. The contemporary groups of indigenous people of Central America who are generally considered to be decedents of the ancient Mayans are the constant study of individuals and organizations ranging from serious academics to interloping practitioners of Mayan life and Mayan spirituality. These discourses are a very different vision of the Mayan Calendar's end of time. Professor bell suggests a unique action that 2012 presents to you. Eschewing the usual apocalyptic predictions, the discourses offer a genuine gift from America's indigenous visionaries.

Visionary historian Arguelles unravels the harmonic code of the ancient Maya providing valuable keys to understanding the next twenty years of human evolution.

The Book of Revelation tells of angels who fall from their heavenly estates. The Mayan calendar foretells the fall to some two hundred thousand years ago. The discord that followed sent repercussions to earth, arriving about nine thousand years ago when the first generation of the human race Israel emerged. By 4500 BC, an Agenda of a Snake from the fallen angels began to breed the biblical lines of Cain and Seth. Soon, the third generation emerged, and the conditions man calls good and evil began proliferating on the earth. Man's spirit commenced through the spirit of the angel Michael, but today it remains trapped within the human mind. Six thousand years ago, the angels Michael, Ra, Viracocha, and Ra Agenda came to earth to free man's spirit by attempting to prevent the creation of the human race. Unsuccessful, they left earth, bequeathing the Mayan calendar, which contains information about the five Ages, to the Mayan people. The Ra Agenda reemerged by 1948 as the mysterious UFO that defied the laws of reality. They have come to secretly assist mankind through the approaching shift in human consciousness scheduled to occur in the fifth Mayan Age of Aquarius in the year 2040.

Draws on the latest scientific research and theories, as well as writings of a variety of ancient civilizations, to explore the belief that the year 2012 has been pinpointed as a cataclysmic year in human history, offering an authoritative study that assesses how close the planet and humankind are to extinction. Reprint. 40,000 first printing.

Bestselling author Barbara Hand Clow shows how the Mayan Calendar is a

bridge to galactic wisdom that fosters personal growth and human evolution • Unearths the meaning behind the calendar, its message for modern civilization, and what will happen when the calendar ends • Reveals how time acceleration is a manifestation of the acceleration of consciousness • By the author of The Pleiadian Agenda The Mayan Code is a deep exploration of how, as we approach the end of the Mayan Calendar, time and consciousness are accelerating, giving us a new understanding of the universe. Using Carl Johan Calleman's research, as well as the ideas of other Mayan Calendar scholars, Barbara Hand Clow examines 16.4 billion years of evolution to decode the creative patterns of Earth--the World Mind. These great patterns culminate in 2011, and then during 2012 major astrological influences will inspire us to attain oneness and enlightenment. The Mayan Code shows how the time cycles of the Calendar match important periods in the evolutionary data banks of Earth and the Milky Way Galaxy. These stages of evolution are converging during the final stage of the Calendar, the period between 1999 and 2011. War and territoriality, resource management and separation from nature, are all part of daily events we must process during these few short years: evidence of the tightening spiral of time that we experience as time speeding up. Barbara Hand Clow counsels that our own personal healing is the most important factor as we prepare to make this critical leap in human evolution--now referred to as the awakening of the World Mind.

In *Maya Political Science: Time, Astronomy, and the Cosmos*, Prudence M. Rice proposed a new model of Maya political organization in which geopolitical seats of power rotated according to a 256-year calendar cycle known as the May. This fundamental connection between timekeeping and Maya political organization sparked Rice's interest in the origins of the two major calendars used by the ancient lowland Maya, one 260 days long, and the other having 365 days. In *Maya Calendar Origins*, she presents a provocative new thesis about the origins and development of the calendrical system. Integrating data from anthropology, archaeology, art history, astronomy, ethnohistory, myth, and linguistics, Rice argues that the Maya calendars developed about a millennium earlier than commonly thought, around 1200 BC, as an outgrowth of observations of the natural phenomena that scheduled the movements of late Archaic hunter-gatherer-collectors throughout what became Mesoamerica. She asserts that an understanding of the cycles of weather and celestial movements became the basis of power for early rulers, who could thereby claim "control" over supernatural cosmic forces. Rice shows how time became materialized—transformed into status objects such as monuments that encoded calendrical or temporal concerns—as well as politicized, becoming the foundation for societal order, political legitimization, and wealth. Rice's research also sheds new light on the origins of the Popol Vuh, which, Rice believes, encodes the history of the development of the Mesoamerican calendars. She also explores the connections between the Maya and early Olmec and Izapan cultures in the

Isthmian region, who shared with the Maya the cosmovision and ideology incorporated into the calendrical systems.

Mayan daykeeper Hunbatz Men reveals the multi-calendar system of the Maya that guided the lives of his ancestors and how it can guide us today • The first book to reveal the secrets of the Mayan Pleiades calendar: the Tzek'eb • Explains how the Maya used their astronomical knowledge to guide their lives on Earth The Mayan Calendar has taken on special prominence with the imminent arrival of 2012, a date that many claim is the end of that calendar. However, as Mayan elder and daykeeper Hunbatz Men shows, the cosmological understanding of his ancestors was so sophisticated that they had not one, but many calendars, each based on the cycles of different systems in the cosmos. In this book he reveals for the first time the Tzek'eb, or Pleiades, Calendar of 26,000 years, which charts the revolution of our solar system around Alcyone, the central star of the Pleiades system. He also discusses the K'uuk'ulcan Calendar of the 4 seasons of the solar year and the wheel of the K'altunes Calendar, which is composed of 13 cycles of 20 years each that form a calendar of 260 years. In traditional Mayan culture the computation of time was not determined by simple economic or social motives. The calendars served the higher purpose of synchronizing the lives of human beings and their societies to the great cosmic pulsation, to the rhythm of the annual seasons, and to the other cycles that dictate changes upon Earth. Mayan understanding of the cosmic cycles was so exact that this knowledge could be used to influence all stages of life--from planning when to conceive (parents could choose not only the sex of their child but its vocation and future destiny) to plotting out the course of the entire society. Pyramids played a crucial role in applying this wisdom because, as Hunbatz Men shows, they were able to produce and transform energy in accordance with the cosmic cycles charted by the calendars. This book reveals for the first time the wisdom of the multi-calendar Mayan system and how it can help guide our modern world.

You've noticed lately -- haven't you? -- that for the past few years, UFOs and phenomena in the skies are all over the place. Well, hold on to your hats! You can be pretty sure this is only going to increase in its frequency in the skies. In this book, you'll be able to read a little bit about who the beings in the UFOs are, where they're from, why they're here, and so on. In the future, it won't just be airplane pilots reporting on these things. You'll be talking about it among yourselves because regular folks just like you will be seeing these ships. This time, don't keep it quiet. Just talk about it with your neighbors or your friends online. It gives other people permission to believe what they saw. People have been taught, you know, not to believe what they see. So you can believe it -- it's real.

Discover What the Prophecy of 2012 Means for Your Life According to the Mayan Elders, at the moment of birth every human being is given a destiny. Our life challenge is to develop ourselves and our skills in order to fulfill this destiny,

Download File PDF The Mayan Calendar And The Transformation Of Consciousness

thus fueling our individual contribution to the planet. At the heart of *The Book of Destiny* is the sacred Mayan calendar, an extraordinary tool that allows the reader to discover this destiny, along with one's special Mayan symbol, origin, as well as the protection spirits that accompany them through life. Poetically narrated, the book describes how the calendar contains the scientific legacy of the Mayan people, preserved and transmitted over the centuries through oral tradition and written texts. Written at the request of the Mayan Elders, by member of the Guatemalan Elders Council and Mayan Priest Carlos Barrios, *The Book of Destiny* is a tool to help people understand their life purpose and to use this profound knowledge to make the best of their time on earth.

Dispels the prejudices and misconceptions that surround the Mayan Calendar, 2012, and the existence of extraterrestrial life.

A guide to aligning your life with the frequencies of the Nine Waves of Creation • Explains the quantum physics behind the Waves of the Mayan Calendar system and how their holograms shape the human mind • Shows how throughout history each revolution in human consciousness has been driven by the activation of one of the Nine Waves of Creation • Reveals how we can consciously work to deactivate the negative patterns of the Sixth Wave and manifest the unity consciousness of the Ninth Wave In the past few years the world has witnessed changes in social consciousness whose sudden development the ruling scientific paradigm has not been able to explain. These changes correspond with the activation of new Waves of Creation emanating from the center of the universe that influence human thinking. From the Big Bang to the present, these Waves guide the evolution of the universe and, through their holographic resonance with the human mind, profoundly shape revolutions in religion, technology, economy, and social consciousness. Presenting a quantum-holographic perspective on world history and human consciousness, Carl Calleman explains the quantum physics behind the Waves of the Mayan Calendar system and how these Waves allow us to understand the shifting eras on Earth as well as the possibilities of the future. He describes how, prior to the activation of the 6th Wave in 3115 BCE, our social systems were based on a unified cosmic order, but the hologram of this Wave shifted society to an all-consuming focus on Good and Evil, leading to the rise of patriarchal religious structures, slavery, and warfare. He explores how later Waves and their new holograms helped humanity survive the negative effects of the 6th Wave, such as the Industrial Revolution of the 7th Wave and the Digital Revolution of the 8th Wave. In 2011, the 9th Wave was activated, bringing with it an accelerated push for a more egalitarian world, a rising awareness of unity consciousness, and access to the full power of all Nine Waves of Creation. Calleman explains how our individual resonance with each Wave plays a role in the quality of our lives and how we must consciously work to resonate with the higher Waves. Revealing how we can become quantum activists in a holographic world by aligning with the 9th Wave, the author shows how we each can help manifest the destiny of humanity hinted at in ancient texts.

A wall calendar providing the Maya calendar dates for each day of 2012. The Maya dates are displayed in hieroglyphics with English translations. This edition also includes "this day in Maya history" facts, beautiful photos from around the Maya world, and the momentous turn of the 13th Bak'tun on December 21, 2012. Authored by archaeologist Dr. Edwin Barnhart, Director of the Maya Exploration Center.

Reveals the Mayan calendar to be a spiritual device that describes the evolution of human consciousness from ancient times into the future • Shows the connection between cosmic evolution and actual human history • Provides a new science of time that explains why time not only seems to be speeding up in the modern world but is actually getting faster • Explains

Download File PDF The Mayan Calendar And The Transformation Of Consciousness

how the end of the Mayan calendar is not the end of the world, but a path toward enlightenment The prophetic Mayan calendar is not keyed to the movement of planetary bodies. Instead, it functions as a metaphysical map of the evolution of consciousness and records how spiritual time flows--providing a new science of time. The calendar is associated with nine creation cycles, which represent nine levels of consciousness or Underworlds on the Mayan cosmic pyramid. Through empirical research Calleman shows how this pyramidal structure of the development of consciousness can explain things as disparate as the common origin of world religions and the modern complaint that time seems to be moving faster. Time, in fact, is speeding up as we transition from the materialist Planetary Underworld of time that governs us today to a new and higher frequency of consciousness--the Galactic Underworld--in preparation for the final Universal level of conscious enlightenment. Calleman reveals how the Mayan calendar is a spiritual device that enables a greater understanding of the nature of conscious evolution throughout human history and the concrete steps we can take to align ourselves with this growth toward enlightenment.

When his archaeologist parents go missing in Central America, fourteen-year-old Max embarks on a wild adventure through the Mayan underworld in search of the legendary Jaguar Stones, which enabled ancient Mayan kings to wield the powers of living gods. Includes cast of characters, glossary, facts about the Maya cosmos and calendar, and a recipe for chicken tamales.

"Mayan Calendar Astrology: Mapping Your Inner Cosmos" is the quintessential handbook to help you understand the art of Mayan astrology and how to harness it for a profound illumination of your personal lifepath. If you liked "Jaguar Wisdom," this book will take you even deeper into the powerful insights that Mayan astrology can offer, whether you're a seasoned expert or just a beginner. Included in the book are: - Complete information about the day signs and numbers - The importance of the Year Lord - The Mayan Destiny chart (also known as the Mayan Cross) - The complete nine-sign horoscope - Solar and lunar cycles - A unique method for determining the phases of human life - The personal compatibility matrices embedded within the Tzolk'in - A little-known technique for assessing human relationships by combining two horoscopes into a composite chart - Calendar diagrams and horoscope templates - A powerful and meditative technique called the "Path of Feathered Serpent," based on our own "personal lunar month" and designed, through a series of guided meditations, to awaken the koyopa or inner lightning we all possess. REVIEWS: "I am profoundly grateful to Kenneth Johnson for sharing his experientially based understanding of the Tzolk'in in this remarkable book. As a long-time lover of the Mayan world, 'Mayan Calendar Astrology' finally opened my eyes to the subtle workings of the 260-day calendar and led me to embrace it as a genuine path to self-understanding. The author's work is based upon his years of work with several aj q'ijab' in the Guatemalan highlands, primarily in Momostenango, the important center for contemporary Mayan calendar knowledge. Johnson's explanations of the significance of the 13 numbers, the Mayan Destiny chart, the Year Lords, and the Path of Feathered Serpent are unique in popular literature and will enrich the understanding of even dedicated scholars." - Robert Sitler, PhD, Director, Latin American Studies, Stetson University

Explains in a larger perspective the true meaning of the calendrical system of the Maya. The book reflects one of the greatest changes in human thinking ever to have taken place, one that unifies Western and Eastern thinking. The book provides a common perspective on the emergence of all human religions and schools of thought. As the true meaning of the calendar is solved it becomes clear that we are living in a creation that evolves according to a pre-set schedule provided by the Mayan calendar, aiming at a completion on 28 October 2011. The basis for a prophetic science is now returning. The message of this book is crucial to everyone alive: human life has a higher purpose and we may all live so as to fulfil this.

"This reference work collects, defines, and correlates the month names in every

recorded Maya calendrical tradition from the first hieroglyphic inscriptions to the present."--Provided by publisher.

Crocodile Goes Out is a delightfully illustrated tale of the Day Lords of the Mayan Calendar that captures both the wit and wisdom of this ancient people. Written in English and Spanish, with Mayan glyphs, Crocodile Goes Out is a wonderful way to introduce children to the fascinating world of the Maya while honing their English and Spanish reading skills. Crocodile Goes Out brings the Day Lords who circle the sacred calendar of the Maya to life. Page by page, as the story unfolds, readers learn the English, Spanish and Maya names of these deities and gain insight into their vital role in the everyday life of the Maya. The twenty Day Lord glyphs of the Tzolkin calendar always follow the same cyclical order. The story in this book was created as a device for remembering the twenty glyphs of the Mayan Calendar in proper order. Unlike Christian rectangular calendars, the calendars of the Maya are circular in design, without defined beginning or end. Scholars currently start the cycle with Crocodile and end it with Sun as has been done in this book. Because the World of the Maya spreads over vast areas, it is continuously influencing and being influenced by other cultures with differing languages and artistic traditions. Thus, Day Lord names and symbols used to depict them vary by region and when the symbols were carved, painted or embroidered. This book endeavors to remain true to the style of the ancient glyphs while creating images that effectively convey their sacred meaning.

The firsthand account of a god who comes to Earth to destroy mankind and ends up being its defender. When clouds suddenly envelop the globe and a ceaseless rain begins to fall on every continent, Du Moss, an amphibious teen, has only days to save the Age of Man from the Great Flood that will wash away the modern world.

Does the end of the Mayan Calendar start the countdown to Judgment Day? Biblical and historical researcher David Montaigne concludes that this is the case. He says that the end of the Mayan Long Count is the official start of the Bible's seven-year tribulation-both were focused on the same astronomical events that occur from 2012 to 2019. The world as we know it will be gone by 2020. Texts from ancient India tell us about great cycles of destruction. The Egyptians told the same basic story with different names. The Maya reveal another version of the story, and were very clear about the timing of events from December 2012 to 2019. Your average American is no expert on these cultures, but most people do have a Bible at home-and the clearest details on what is about to happen can be found in the Bible, if you don't let someone else tell you which parts you should focus on. No, this isn't what you were taught in Sunday school. Religious leaders guide us between the raindrops of curious comments in the Bible. We are discouraged from focusing on the parts they say we weren't meant to understand. But if we stop glossing over these important passages we will understand a flood of details about the End Times. Our "leaders" are not ignorant of these events. The elite already know what is about to happen and they have made preparations most rational people would not believe, because evidence is suppressed to avoid chaos. They want us to remain ignorant, or at least to believe that the details are secrets that cannot be known. But the coming events (and their timing) are not secrets. Years ago, this book's publication would not have been tolerated by those in power. But by now it doesn't matter much-their plans are not going to be interfered with at this point. Your plans, however, can still be formulated, if you make the choice to understand. Topics include:

Download File PDF The Mayan Calendar And The Transformation Of Consciousness

Bible Prophecy; Matthew 24:36- Knowing the hour and the day; The Mayan Calendar and Mythology; Pole Shifts; Galactic Superwaves; Ancient Egypt; Ancient India; World Mythology; The Georgia Guidestones; The real Star of Bethlehem and the exact birthday of Christ; Calculating the Second Coming, and Judgment Day; more.

New Book Bridges Ancient Wisdom with Modern Technology! The ancient wisdom ascribed is found behind the creation of a 500-year-old artifact, the Aztec Calendar. To the Natives it was Teoilhuicatl Apaluaztli Ollin Tonal Machiotl meaning the Great and Venerable Mechanism of the Universe. Dr. Randall C. Jimenez, a former San Jose State University educator, and Richard B. Graeber, an engineering documentation specialist, have collaborated to create the first Technical Manual for the Aztec Calendar ever produced. [Note: The Aztec name was given to the Mechican Indians (ch as in chevron; sometimes spelled Mexican) by the writer W. H. Prescott in the early 19th century.] The Aztec Calendar Handbook, involving thousands of man-hours of effort to create, takes a blueprint style approach to a Historical Reference primer. Illustrated with over 150 technical drawings showing enlargement details, cut-away views, and computer-generated art, this new guidebook has been called the "ultimate" Aztec Calendar reference treatise. Distilled from over 240 sources and quoting direct eyewitnesses from the 1500's, it further includes a glossary of over 230 native words. This attractive book is made with parchment paper and has a leather-grained cover, making it resemble an ancient manuscript. The research for writing the Aztec Calendar Handbook was assisted by custom software to convert Native date designators into our modern calendar dating system. In this way, a researcher is able to convert and track the dates of events from surviving native history books, known as codices. Mountains of information could be processed more efficiently and accurately when correlating indigenous dates. Inversely, a Julian date can also be converted into the Mayan long-count system. It is then possible for the Mechican calendar-labeling scheme to be transposed over the count to generate a person's Aztec tonallo or spiritual name from their birth date. According to Native tradition, our current long-count cycle will be complete on the winter solstice 2012. A long-count cycle, credited to the Olmec/-Maya, is 5125 years and started in the year 3113BC. No one is really sure what will happen when the cycle ends, but the material in this book offers a solid foundation for figuring it out. By looking at myths, legends & history with an Aztec's perception of God, this new Manual provides needed answers to some important questions. Would you like to know about how and when the Maya influenced the design of the Aztec Calendar? Have you ever seen the Hopi version of the Plumed Serpent? Would you like to put the last 12,000 years into perspective? If so, then your library needs the Aztec Calendar Handbook. You will find yourself referring to it over and over again. No stone has been left unturned.

When will the world end? According to the ancient Mayans on 22 December 2012 - will this be an apocalypse or a new beginning? Disaster or awakening? This thought-provoking book explores the accuracy of the Mayan calendar, decodes the hidden meaning in ancient texts, tombs and glyphs and reveals the full meaning of the Mayan prophecy for us all.

On the Mayan Calendar, every day of the year represents the energy of one of the twenty solar glyphs and one of the thirteen numbers, called tones. The solar glyph indicates your soul purpose, and the tone is the energy you will use to attain this

Download File PDF The Mayan Calendar And The Transformation Of Consciousness

purpose.

The Mayan calendar was one that calculated the end of the world. It once brought historians, philosophers and thinkers fear of the coming doom. In this book, however, we are going to look at the topic objectively. We are not going to focus on the prophecies. We are only going to appreciate the fact that the Mayans were very advanced of their time. Read history books today!

A contemporary and practical guide to Mayan astrological techniques • Discusses the logic and meaning of the 20 day-signs of the Mayan calendar • Explains the many cycles of Mayan astrology, such as the 9-day cycle of the Night Lords and the 13-day trecena • Contains extensive tables of Mayan astrological data, allowing readers to cast their own Mayan horoscopes

How to Practice Mayan Astrology presents a contemporary guide to one of the most sophisticated astrological systems ever developed. Like other ancient peoples, the Maya looked to the cycles of the planets as markers of time and designators of order. The predictable cycles they observed became codified in the Mayan calendar and astrological system as a way of organizing the seeming chaos of human life. Mayan astrology is based on 20 named days that are cycled 13 times to create a 260-day calendar, the Tzolkin. The authors explain the symbolism, logic, and meaning of the 20 day-signs; how these signs reflect 260 possible personality types; and how they can be used for divination. They also explain the important role of the Four Directions and the planet Venus in one's personality matrix and life issues. Included are extensive, easy-to-use tables of Mayan astrological data, allowing readers to determine their day-signs, to see how these signs are also influenced by the cycle of the Night Lords and the 13-day trecena, and to cast their own horoscopes.

A much-needed guide to the Mayan calendar systems and the essentials of calendar development throughout the world.

Perform this script about an ancient Maya love story.
